## Winch Mount Installation Instructions

for 00-06 Yamaha YFM 400 Big Bear 4x4

Part Number: 1543M (4505-0372)

### INSTRUCTIONS:

1. Install the winch mount behind the front bumper so the (4) provided 5/16" bolts and flat washers will go through the winch mount and into the four frame and bumper brackets. Install the (4) flanged nuts and tighten evenly.
2. Install the winch to the winch mount using the hardware provided with the winch. Orientate the winch so the cable pulls from the bottom of the drum.
3. Attach the roller fairlead to the front of the mount using (2) 5/16" x 3/4" hex bolts and 5/16" Nylock nuts provided (rollers should turn freely). **Note:** Bottom roller may need to be removed to run wire rope through. Tighten all bolts securely.
4. Using the instructions provided with the winch, wire accordingly.
