

KL 250 Expedition Rack Installation Instructions PN# 1510-0173

Remove the 4 bolts (2 each side) that hold the grab handles below the seat.

Install the rack mounts on each side using the original hardware. The rack mounts are marked right (MR) / left (ML)

Do not tighten the bolts at this time.

Slide the rack from the rear over the mounting area.

Install the provided bolts, nuts and washers on each side.

Tighten all hardware starting with the rack mounts to the frame bolts, then the rack to mount bolts.

The original grab handles are not reinstalled in this application.

Use your own judgment when loading your motorcycle.

Limits may depend on rider experience, speed, terrain to be covered and weather conditions.
