

## Moose Racing Front Lift Strap

Finally, for you hard-core enduro riders and trail fanatics: The Moose Racing Front Lift Strap provides a handy place to grab and pull your bike when in the nastiest of situations or even just loading your machine into the truck. It is made from the finest materials available. It is built to work well, look good, and last. **Caution: The Moose Racing Front Lift Strap is intended for manual pulling of the motorcycle only. Not intended to be used as a tie-down point, lifting the entire motorcycle, or towing.**

### Installation Instructions

1. Install the Moose Racing front lift strap on your front forks by weaving the webbing through the buckles as shown.
2. Adjust the length of the Moose Racing front lift strap to suit your preference. If desired, trim excess and melt trimmed end.
3. The webbing may be tight around the forks or loose to suit personal preference, and above or below the lower fork clamp.
4. Use as needed!
