

ICON ALWAYS STRIVES FOR THE EXTRAORDINARY.

We are a brand of passion and ideas. Pushing our own boundaries and exploring every aspect of the motorcycle lifestyle. As a result of this constant search for something sub-genres allow us to focus our product offerings in a more rider specific way, but always with the ICON attitude.

A detailed, low-angle close-up of a motorcycle's engine and suspension system. The image is dominated by metallic parts, including the cylinder head, valve train, and various linkages, all rendered in a dark, moody blue and black color palette. The lighting highlights the textures and mechanical complexity of the engine.

VITRIOL

MERC VITRIOL™ JACKET

« \$175

Haters Gonna Hate. This is our skull-crested cross to bear. This is us - of smoked clutch plates and indifference to the status quo. We invented these gangster hits, and here we are once again with the Vitriol Jacket. The chorus will hate it, but you will love its D30®-infused, reinforced soft-shell chassis, and a style that makes no apologies for being awesome.

TEAM MERC™ JACKET

€175

A name from ICON's past, revived for its future. We've heard your calls, tweets, and profane shouting. You want that OG ICON steeze – and you want it now. We delivered with the Team Merc Jacket. While its softshell chassis may look casual, the integrated Nylon paneling and a full D30® impact protector suite come through in a tumble. Hood, oversized kangaroo pockets, pit zips, and Sportcuff continue the evolution of what true riding gear can be. ICON fans and soon-to-be ICON fans, welcome to the bigs: the Team Merc is your new uniform.

ANTHEM 2™ JACKET

« \$190

The Anthem 2 Jacket defines the textile category with a revised design and segment-busting features. The proven Fighter Mesh™ chassis is necessary for venting and breathability, and is further reinforced with ballistic nylon paneling. Industry-leading D30® shoulder, elbow, and back impact protectors are standard. A full-length SatinCore™ liner adds modularity to the ensemble, and inspired pattern design and colorblocking elevate the Anthem 2 over its drab peers. Intrepid design, proven performance.

HYPERSPORT PRIME™ JACKET

« \$375 S-2X \$410 3X-4X

The Hypersport Prime jacket is the elite performance garment of the ICON line. The Hypersport Prime chassis is constructed of multiple materials, each chosen for their unique performance properties. TrackSpec™ leather, integrated TPU shoulder & elbow caps, TechMesh™ ventilation panels, and comfort molded neoprene cuffs and collar all play their part in the Hypersport Prime construction. Extensive Unit-Fused™ construction on the back fuses TPU plating onto a 3D airmesh panel, allowing for reinforced ventilation. A full D30® package, elbows fitted with three-position pockets that allow for proper impact protector placement. The Hypersport Prime also features ICON's new SportCuff™ - designed for ease of use, reduced cuff bulk, and enhanced wrist articulation.

HYPERSPORT™ JACKET

◀ \$340 S-2X \$390 3X-4X

The ICON Hypersport jacket is designed for precision at speed. Full leather chassis, aggressive attack fit, refined pre-curved arm design, and neoprene panels bring the jacket tighter to the body and make it more aerodynamic at speed. The Hypersport jacket shell is constructed from TrackSpec™ leather and features a full D30® Impact Protector package (Shoulders, Elbows, & Back). The Hypersport also features ICON's new SportCuff™—designed for ease of use, reduced cuff bulk, and enhanced wrist articulation. Integrated TechMesh™ paneling and engineered perforation throughout the entire chest and back help reduce core temperature—necessary for aggressive riding.

SANCTUARY™ JACKET

« \$300 S-2X \$330 3X-5X

The next-generation leather jacket defined: lighter, cooler, more agile, while still maintaining the undeniable qualities of leather. The Sanctuary Jacket is comprised of 1.2-1.4mm ICON Brazilian leather in the primary zones, Dynax™ ballistic nylons in the secondary zones, and multiple areas of gathered elastic in the major flex zones. The result is a new take on Sport riding jackets. The Sanctuary works with the rider, providing not only a highly-defensible space, but also a garment designed for the athleticism required in riding modern sport motorcycles. Internally the Sanctuary is outfitted with a full complement of D30® impact protectors (shoulder, elbow, back).

PDX™ WATERPROOF SHELL

« \$120

Birthered in the rain-soaked laboratories of Portland, Oregon, the PDX is our answer to Mother Nature's fury. The pattern of the ripstop waterproof shell is cut full to fit over your normal riding gear. The unique roll-up hood seals against the neck during your ride, then unfurls to cover your helmet hair when you arrive at your destination. A couple of well placed pockets, complete seam sealing and reflective graphics complete the program. The PDX: keeps you dry while keeping you 'fresh.'

CONTRA™ JACKET

« \$225

From the shadowy realm of street-styled textile jackets, we again tapped our mx roots and tripled into the main. Contra is technically superior in fit & function to all that came before. Ultra durable nylons are strategically patterned into the industry's finest no-bind fit. Fighter Mesh™ panels allow intake and exhaust airflow, dramatically reducing the chance of overheating. Mounted within the chassis are Field Armor™ elbow and shoulder impact protectors. Finally, ballistic rubber badging puts the classy in this chassis. Zip one up and become a believer: this is the ultimate in textile perfection.

ASSOCIATE™ VEST

◀ \$400 S-2X \$450 3X-4X

The absolute finest leather motorcycle vest in the world, the Associate Vest is sleeveless perfection. The Associate is cut with a trim ICON 1000 pattern and constructed from our antiqued drum-dyed cowhide. Tactical black YKK® zippers ensure a lifetime of performance on the open road, while the removable D30® back protector provides legitimate street insurance. Run it stripped, or if 'associating' doesn't violate your terms, throw your colors on the back.

BRIGAND™ VEST

◀ \$120

From the leader in motorcycle vests comes the Brigand. Consider it a tactical riding rig, capable of doing leather work on a textile salary. The Brigand, like all ICON vests, ships with a removable back protector. In this case it is a D30® Viper back protector. This protector lies discretely hidden under the Brigand's durable textile chassis until such time as it is called into service. Additional features of the Brigand include both metal and nylon YKK® zippers, torso adjustment straps, and padded AX Suede shoulder overlays for increased durability.

REGULATOR™ VEST

« \$265

ICON has a unique vision to recognize holes in the market where a product should exist, but doesn't. It's part of the reason we are here. The Regulator Vest is one of those profound products that creates its own dimension. At first glance, it's apparent that this is no mere "Fat Brother Bob's Cruiser" vest. The Regulator is made of premium 1.4mm leather. It houses the same Field Armor™ Stryker back protector as the Field Armor™ Vest. This back protector is removable; doing so reveals a large back panel - perfect access for attaching a club patch, or whatever you can think up. Also featured are two cross-draw pistol pockets up front. Now you can retrieve your smokes confidently, without resorting to the infamous "chicken-wing arm" technique. The Regulator Vest is sized to rock over your jacket, or just use the side fit adjustment straps to wear it alone.

FIT: Adjustable Fit

MATERIAL: 1.4mm Premium Leather Chassis

PROTECTORS: Field Armor™ Stryker Back Protector (Removable)

DETAILS: Large Accessible Back Panel for Attaching Club Patch, Cross-Draw Pistol Pockets, Side Fit Adjustment Straps, Sized to Fit Over Jacket, Premium YKK® Zippers.

MIL-SPEC INSTRUCTOR ORANGE

MIL-SPEC™ MESH VEST

« \$60

Jumping through hoops to get that new bike onto base? While we can't help you bypass military regulations, we can help you meet them without looking like a construction worker. The Mil-Spec vest was designed to pass all U.S. military specifications for a mandatory reflective vest. In the end, no bright reflective vest is ever going to win you style awards. But if you have to wear one—it might as well have the style and features that won't make you cringe. Ride safe, we need you out there.

INTERCEPTOR™ MESH VEST

« \$80

ICON has long recognized the unique riding requirements of the US Military member. Our line of Mil-Spec products has led the charge for high-visibility gear that avoids the typical job site comparisons. The Interceptor Mil-Spec vest continues the unique ICON marriage of safety and style. The Interceptor's chassis is purpose built of multiple material types. Ballistic nylon shoulder overlays provide abrasion resistance, reflective panels enhance nighttime visibility, and Fighter Mesh™ belly and back panels allow enhanced airflow. Front zipper access, elastic side adjustment cords, and velcro ID holder complete the package.

STRYKER™ VEST

« \$130

The Field Armor™ Stryker vest is at the very heart of the ICON creed. A silhouette that broke with the conventional race derivative dogma and struck out on its own street-specific course. External plastic plating defines the Stryker's commanding form which has become the de facto uniform of sportbike riders worldwide. Elastic and hook & loop straps help ensure a snug fit over multiple body sizes, while the low-profile form factor fits easily under most jackets. Internally the Field Armor™ Stryker vest is loaded with a custom molded D30® back insert with custom molded ICON geometry. Join the ranks of riders that swear allegiance to the Stryker.

STRYKER™ RIG

« \$250

Looking for a flagship product in impact protection? Look no further. We used every resource at our disposal to make the Stryker Rig our most comprehensive impact protection package to date. First, we loaded it up with enough tactical protective features to exceed the world's toughest standards. The two-piece shoulders and elbows offer maximum coverage while their D30® inserts provide incredible impact dispersion. The articulating back protector is aided by a special D30® insert with molded air channels. Speaking of air, the injection-molded chest plate features integrated air intakes while the chassis is made with Airmesh and Hydradry™ to help wick away moisture. The fit can be tailored with adjustable waist and elbow straps, and stretch materials help to reduce arm pump and fatigue. The Stryker Rig: Impact protection from the inside out.

STRYKER™ BACK PROTECTOR

« \$90

The Field Armor Stryker Back Protector starts with a custom molded biofoam chassis. Designed to mold to your back, air channels within the foam allow heat to escape, resulting in reduced fatigue. Secured to the chassis are three layers of multi-density foam, which are capped by an articulated reinforced plastic shell. The reinforced shell helps diffuse impact forces. In addition, the shoulder and waist straps are removable, providing you with the option of installing the back protector into certain ICON jackets.

STRYKER™ KNEE PROTECTOR

« \$105

Road rash on your knees or gouged shins will ruin your month. ICON knows these lessons well. If you choose to hit the streets in anything less than full leather pants, you need knee protectors. That's a damn fact. The Field Armor Stryker Knee Protector is equipped with D30® inserts. The low-profile rider developed chassis fits easily under almost any pant with easy adjustment velcro strapping to keep them in place. Wear them and stand a fighting chance of skipping that painful trip to the hospital, so you can begin the equally painful search for new clip-ons & rearsets on eBay®.

STRYKER™ SHORTS

« \$70

Hip protectors are a lifesaver. Well, not a lifesaver, but definitely a hip protector. So much so that we integrated both biofoam and hip protectors into the Field Armor Stryker shorts. The form-fitting chassis places a layer of high-tenacity aramid between your ass and the street. If you have ever been down before, you won't need any further convincing on the need for this feature. Finally, the mesh crotch panel provides ventilation in key areas, because protection without ventilation is just plain...sweaty. The Field Armor Stryker Shorts, shielding the bits you hold most dear.

HYPERSPORT PRO™ LONG GLOVE

€ 180

ICON is always searching for the upper hand; we've found it with the Hypersport glove. The materials and construction of the Hypersport glove have been purposely chosen for their innate abilities to provide this advantage. It all starts with a French cowhide and kangaroo chassis. The French cowhide backhand, supple & strong, provides excellent comfort and flexibility. The kangaroo palm, a hallmark of purpose-built track gloves, provides optimum abrasion resistance and dexterity. Additional panels of digital BattleHide™ goatskin are located in areas of high wear from grips. The mechanical articulation panels, which run the length of each finger, provide excellent flexibility from the very first wear - no break-in period needed. Key construction techniques include ICON's exclusive floating knuckle, which allows for maximum knuckle articulation, and an out-seamed finger box for all day comfort. The Hypersport gloves feature full knuckle coverage from the vented TPU/Polycarbonate knuckle plates. The Unit Fused™ gauntlet also features large external TPU wrap-around coverage and Unit Fused™ reinforced ventilation panels. Multiple hook & loop closures allow for a secure fit.

TWENTY-NINER™ GLOVE

« \$35

A standing tradition in ICON's line of MX inspired, street-specific lightweight riding gloves. All our standard performance amenities are here, such as a pre-curved palm and finger design, thermoplastic rubber knuckles, and a secure wrist closure system. Of course a street motorcycle glove isn't really a glove without a leather palm. The Twenty-Niner glove features a goatskin palm capable of hand-to-hand combat with gravel choked asphalt. With its hi-flow mesh backhand, the Twenty-Niner glove is perfect for spring and summer riding.

PATROL™ WATERPROOF GLOVE

€ 75

Eighty percent of the controls on a motorcycle are operated with your hands. The Patrol waterproof gloves were designed to keep you in control when the weather turns foul. The fully insulated and waterproof design provides maximum comfort and sanctuary from the elements. The chassis is not only waterproof but features a mild precurve design to reduce hand fatigue. The palm is constructed of Battlehide™ goatskin, while comolded knuckles cover the backhand. Finally, an integrated goggle wipe built into the thumb helps keep your shield clear.

HYPERSPORT™ PANT

« \$235

The ICON Hypersport pant is the elite accompaniment to the Hypersport jacket. Like the entire ICON Hypersport series, the Hypersport pant is constructed of multiple materials, each chosen for their unique performance properties. The main chassis is comprised of 1.2-1.4mm TrackSpec™ leather, stretch Cordura, and nylon lowers. This construction yields an incredibly durable pant while keeping overall weight to a minimum. TPU knee plates and D30® knee impact protectors are coupled with integrated knee and lumbar flex zones for excellent on-bike mobility. Strategic areas of laser-perforated venting and TechMesh™ paneling help keep everything cool. The tailored fit (no diaper butt here) is accompanied by a ratchet fly closure and dual waist adjustment straps. The Hypersport pant includes an internal waist zipper that connects to either the Hypersport Prime jacket or the Hypersport jacket.

OVERLORD™ RIDING PANT

« \$160

The Overlord Riding Pant represents the next gen in hardcore sport jeans. The fourteen-ounce denim is equipped with the requisite Aramid knee and seat paneling, and then significantly steps up the game with molded external TPU knee plastics - the same type as found on roadrace leathers. Internally, D30® knee impact protectors can be positioned in three separate pockets to adjust for rider leg length. The Overlord Riding Pant fit is based on ICON's relaxed fit pattern: not too baggy, not too skinny - just right for aggressive sport riding.

TARMAC 2™ BOOT

€ 135

The Tarmac 2 Boot is the fusion of athletic shoe design and necessary motorcycle riding features. An emphasis on street sportbike-specific geometry, increased comfort, and ease of use sets the Tarmac 2 Boot apart from all motorcycle boots that have come before. A reinforced upper, steel shank, molded ankle plate, reinforced toe and heel box equip the Tarmac 2 Boot for duty. The sculpted bottom unit was specifically designed to work with sportbike rearsets and allow positioning of your foot for all-day riding comfort and performance. Add a pre-tensioned stealth lace system and overmolded breathable mesh and you are left with a shoe to take on both all-comers, and all-corners.

MATERIAL: Suede Leather and Overmolded Mesh Upper

REIGN™ WATERPROOF BOOT

« \$170

One more product to walk out of our foul-weather development center. The Reign boot's easy access and low-profile design make it an excellent choice for the daily commute or long distance travel. Rugged waterproof YKK® zippers make entry and exit a snap (actually a zip). The waterproof and breathable interior mean your feet stay cool and dry even when it's neither cool nor dry outside. Protection comes by way of durable leather and a ballistic nylon upper mated with injection-molded shin and ankle plates. The lowers feature an axialmetric steel shank along with high friction outsoles. Even with all of these features, we still managed to make them so lightweight and comfortable you may just want to wear them year-round.

PATROL™ WATERPROOF BOOT

« \$170

In the military they say a good pair of boots can make or break you. We set out to make the ultimate riding boots to battle the elements. The Patrol Waterproof boot will keep your feet comfortable and dry during the harshest conditions. The reinforced leather upper features internal ankle plate with a hidden ghillie lacing system for a secure fit with minimal fuss. The bottom unit features an internal steel shank for support with a custom rubber outsole for traction both on and off the bike. The Patrol Waterproof riding boot, the standard by which all will be judged.

SQUAD 2™ BACKPACK

« \$145

The Squad II backpack features unique reflective upper arm straps for increased visibility. Its unique comfort-fit chest closure system allows for a greater coverage area of reflective material while also securing the backpack in a way that is superior to standard shoulder straps when riding. The Squad II has an array of external pockets and compartments. Specifically, a secure 15" laptop carry compartment, and an mp3 player/cell phone compartment with ear bud cord management system. In addition, port and starboard wing compartments are designed for tool and first aid storage. When off the bike, the Squad II is configured to deploy a helmet storage compartment and has several tie-down straps, allowing riding jackets and gloves to be secured. All of this results in a highly-specialized riding-specific pack system with the attitude of a high-altitude jump rig.

SQUAD 3™ BACKPACK

« \$100

Pack up, roll out...it's how we live. When the moment calls, it's time to bug out and hit the backtop with all the necessary gear in tow. To accomplish this, we engineered the ICON Squad 3 Backpack specifically for those that ride day-in-day-out. Revised and re imagined for the daily grind at legal-ish speeds. Updated graphics, a laptop specific pocket, unique front closure system, 360-degree reflective materials and our ICON Tri-Fit Closure System. It's a backpack built with the rider in mind. While the Squad3 is built with water-resistant fabrics, we highly recommend the use of an aftermarket dry bag for any electronic equipment.

MATERIAL: Highly Durable Rip-Stop Nylon Chassis

DETAILS: Unique Riding Chest Strap System with Air Mesh Back Padding, Internal Pocket Can Hold D30® Back Pad (Sold Separately), Custom TPU Hardware, External Loading Strap for Helmet or Jacket, 360° Reflective Material, Exterior Tie Down System, Removable Easy-Access Dual ID Holders

ANTHEM 2™ WOMENS JACKET

« \$180

The Anthem 2 Jacket defines the textile category with a revised design and segment-busting features. The proven Fighter Mesh chassis is necessary for venting and breathability, and is further reinforced with ballistic nylon paneling. Industry-leading D30® shoulder, elbow, and back impact protectors are standard. A full-length SatinCore liner adds modularity to the ensemble, and inspired pattern design and colorblocking elevate the Anthem 2 over its drab peers. Intrepid design, proven performance.

CONTRA™ WOMENS JACKET

« \$225

Textile superiority reconfigured for the fairer sex. Contra's proven blend of durable nylon, fighter mesh and rubber badging has been re-patterned to specifically fit the female form. In the process nothing was compromised. Inside, ICON's internal Field Armor™ provides top-notch street insurance—while the exterior is fast, tough and light. The combination of vented panels and a removable insulated liner makes this a completely versatile women's riding jacket.

OVERLORD PRIME™ WOMENS JACKET

◀ \$495 S-XL \$525 2X-3X

We inhabit a world devoid of air fences or gravel traps. Our runoff zones consist of rusted girders and monolithic masonry, as unforgiving as it is expansive. The sprawl beckons – the Hero answers. With its leather appliqué, injected plastic plates, and attack fit, the Overlord Prime is the new matriarch of ICON street style.

PDX™ WOMENS WATERPROOF SHELL

« \$120

Following our mission to create real riding gear that doesn't suck, we give you the PDX line from ICON. BIRTHED in the rain-soaked laboratories of Portland, Oregon, the PDX is our answer to Mother Nature's fury. The pattern of the ripstop waterproof shell is cut full to fit over your normal riding gear. The unique roll-up hood seals against the neck during your ride, then unfurls to cover your helmet hair when you arrive at your destination. A couple of well placed pockets, complete seam-sealing and reflective graphics complete the program. The PDX, keeps you dry while keeping you 'fresh.'

STRYKER™ WOMENS VEST

€ \$130

The Women's Field Armor Stryker vest features all the same construction as the men's version but has been retailored for a woman's fit. The back plate has been made slightly shorter by changing to a five or six plate arrangement. Additionally, the midriff and velcro adjustment straps have been rescaled for proper fit. Of course the main function of the vest's back protector still remains intact.

OVERLORD™ WOMENS MESH GLOVE

« \$39.95

The Overlord Mesh Glove features a combination of materials enlisted for their unique fit and function properties. The chassis is a combination of 3D airmesh, molded neoprene, and sublimated micromesh - providing excellent flow and flexibility. The knuckle TPR badging and thumb overlays provide overt reinforcement, while subtle touches such as the articulated outer finger and integrated pull-tab provide enhanced dexterity and ease of use. A BattleHide™ goatskin palm with ICON superbranding attests to the Overlord's street legitimacy.

REIGN™ WOMENS WATERPROOF BOOT

« \$170

Rain is a fact of life in our hometown of Portland, Oregon. The constant drip and drizzle is only broken by moments of Biblical deluge. But the ride must go on. The Women's Reign boot was designed specifically to deal with our never-ending wet season. The fit is based upon our proven women's foot form for excellent comfort. The ballistic nylon upper is reinforced with leather overlays for durability and protection. Injection molded shin and ankle plates elevate the protective quotient, while a rubber shifter interface and non-slip sole allow secure interaction with the surroundings. Of course the Reign features a fully sealed lining and waterproof zipper, keeping the boot's interior free from outside water incursion. When it comes to riding, the right gear can make all the difference. When it comes to the wet, we suggest the Reign.

BASEHAWK™ JACKET

« \$280

The blurred line of a cipher, the Basehawk™ is a fully-outfitted motorcycle garment hidden within a chassis with more casual leanings. A four-way stretch softshell chassis says hoodie, but the ballistic nylon, select-grain leather panels, and a full D30® impact protector suite say otherwise. In like a ghost, out like a banshee – the ICON 1000 Basehawk Jacket.

THE HOOD™ JACKET

€600

Your heart may have been an open book when you were young, but times have changed, and your story has grown much darker and much more...complex. This new chapter requires cover and concealment. The simultaneous ability to hide in plain sight or bask in the spotlight. The Hood jacket understands the intricacies of your evolving narrative and stands ready to corroborate. Its impressive 1.1-1.3 Select Grain leather chassis features a removable hood, large front concealment pockets, and mechanical articulation paneling. Internally, a full D30® suite (Shoulders, Elbows, & Back) provides hidden reassurance should the plot twist in an unfavorable direction.

OILDALE™ JACKET

« \$250 SM-2X \$260 3X-4X

A Waxed Heritage™ coated canvas chassis has enough structure to hold its own in the fiercest conditions. Its unique vintage finish comes on strong and continues to evolve its look over the years. Stretch ballistic nylon panels, the same material used in high-end racewear, are incorporated throughout the jacket block to allow for ample mobility during aggressive riding. A full D30® impact protector package (elbow, shoulder, back) is included with the Oildale, as is the removable insulated SatinCore™ vest liner. YKK® tactical metal zippers, Clarino® trimmed collar, and custom cast-metal badging complete the Oildale's refined machismo.

AKORP™ JACKET

« \$515 S-2X \$560 3X-4X

Brutally classy, the Akorp evokes an air of civility even in times of rampant chaos. Boasting a Highland coated canvas chassis with premium Brazilian cowhide overlays, the Akorp stands primed for engagement, but only after first exchanging a pre-battle handshake. A unique belted rear adjustment system keeps the front free of obstructions while providing a waisted fit. The #10 tactical black oxide YKK® main zipper is covered with a magnetic closure storm flap. D30® elbow and shoulder impact protectors join a Viper back impact protector to help cushion the blow from untimely dismounts. A removable vest liner and black oxide hardware complete the understated military persona of the Akorp.

OUTSIDER™ JACKET

« \$525 S-2X \$575 3X-4X

ICON has been the leader in 'convertible' jackets since our inception. Our convertible platform allows the wearer to either run a full-length riding jacket for maximum coverage or zip off the leather forearms for a 'shorty' style jacket. The actual construction process of the Outsider jacket is as unique as the rider who wears it. To start, the Outsider jacket is completely assembled to verify both fit and function. The jacket is then painstakingly disassembled into its denim and leather base materials. The 14 oz. denim panels receive a proprietary wash, texture, & coating, thereby acquiring the unique Highland Coated finish. The jacket is then reassembled, stitch for stitch, to form the finished product. Once reassembled the Outsider is fitted out with a full complement of D30® protector: back, shoulders, and elbows. A removable insulated vest liner is added, as well as the multitude of custom trims and badging. The Outsider jacket: letting those who ride, decide.

CHEETER

CHEETER™ GLOVE

« \$35

Have you ever asked “WWSMQD” (What Would Steve McQueen Do)? Well, great news, he would totally buy this glove. We have it on good authority from his thoroughly whored-out identity and played-out corpse that he absolutely BFF’d sublimated cat prints. Seriously, though we wish it didn’t require the seriously. This is a leopard-printed, named-after-a-cheetah bare-chested hand intervention. Battlehide goatskin palm, sublimated backhand, and D30® knuckle construct a thoroughly modern piece in a world gone sepia. McQueen is dead, but you can still buy what you think he would have worn if he were still alive.

ELSINORE™ BOOT

« \$245

The Elsinore's five-strap, alloy-buckle chassis, stamped metal heel plate, and internal steel shank combine for a serious dose of moto-x homage. The traditional Goodyear welt construction mates the ICON street-specific sole to the magnificent leather upper. A medial entry zipper, allocated from Paratrooper jump boots, is the only luxury the Elsinore will allow itself. A modern relic from an era when men were iron and tanks were steel. The Elsinore, old-school MX reinterpreted for the urban sprawl.

PREP™ WATERPROOF BOOT

« \$270

Retrograde engineering, a hallmark of the ICON 1000 design ethos. Historically significant silhouettes re-imagined with modern materials and construction techniques. And then given a personal twist of moto-apocalyptic 80s fever dreams. The Prep boot is a prime example of this philosophy. A Select Grain leather upper is mated with a full waterproof lining and lugged outsole for massive hits of awesome. Full-length rear zip and calf & heel strapping provide ease of entry and egress. A reinforced toe box, heel, and an axialmetric steel shank do the rest.

EL BAJO™ BOOT

« \$190

El Bajo - literally translated it means 'The Short One.' Short perhaps in overall height, but never in performance or steez. Built on the same Goodyear welt bottom unit as its five-buckle Elsinore brother, El Bajo provides all the OG moto-presence but in a reduced two-buckle silhouette. Metal post fasteners, heavy top-grain leather chassis, and durable toe box and heel make for a serious piece of riding footwear. El Bajo, always up to the challenge.

QUARTERMASTER™ CARDIGAN

« \$125

Shadow Ops, back-alley skullduggery, or a full-blown blockade are all within the wheelhouse of the Quartermaster Cardigan. The knit poly outer shell is bonded to a 390g fleece lining, providing the look and warmth of wool without the traditional sweater itch. The tall ribbed-knit collar, synthetic elbow & shoulder patches, and handwarmer pockets prove ample companions while standing a long mid-watch. The rubber name badging is Velcro'd in place, should the need arise to cut & run. If your intended destination is in harm's way, make sure your insulation layers are up to the task.

MATERIAL: 100% Knit Polyester Outer Shell Bonded to 390G Fleece Lining

DETAILS: Rib Knit Collar, Synthetic Leather Shoulders/Elbows, Velcro TPU Chest Logo, Bicep Pockets with Welded Rubber Trim, Elastic Thumb Loops, Custom Zipper Pulls

STAVANGER™ HOODIE

« \$135

Stavanger is a fishing community located on the southwestern coast of Norway. Cod, mackerel, and herring can all be found in great abundance in its North Sea fisheries. Along its harbor front are the cafes where the original ICON 1000 ideology and designs were first penned. In homage to our favorite Scandinavian city, we crafted the Stavanger Hoodie. It's a four-button Anorak block with a hidden side-entry zipper. The heathered-finished softshell chassis is perfect for tying up the snekke at the dock, or tying on an overnight drunk in town.

CHEETER

CHEETER™ WOMENS GLOVE

« \$35

Have you ever asked “WWSMQD” (What Would Steve McQueen Do)? Well, great news, he would totally buy this glove. We have it on good authority from his thoroughly whored-out identity and played-out corpse that he absolutely BFF’d sublimated cat prints. Seriously, though we wish it didn’t require the seriously. This is a leopard-printed, named-after-a-cheetah bare-chested hand intervention. Battlehide goatskin palm, sublimated backhand, and D30® knuckle construct a thoroughly modern piece in a world gone sepia. McQueen is dead, but you can still buy what you think he would have worn if he were still alive.

EL BAJO™ WOMENS BOOT

« \$190

El Bajo - literally translated it means 'The Short One.' Short perhaps in overall height, but never in performance or steez. Built on the same Goodyear welt bottom unit as its five-buckle Elsinore brother, El Bajo provides all the OG moto-presence but in a reduced two-buckle silhouette. Metal post fasteners, heavy top-grain leather chassis, and durable toe box and heel make for a serious piece of riding footwear. El Bajo, always up to the challenge.

EASTSIDE™ WATERPROOF WOMENS BOOT

« \$190

Subtlety and all-weather functionality are unheard of in womens motorcycle footwear. The Eastside boot seeks to change that. Within its fashion-forward chassis lies a waterproof liner, an axialmetric steel shank, and reinforced toe box. Exterior details include leather shinplate, full medial access YKK® zipper, and metal heel plate. The compromise between fashion and function is over.

DKR™ JACKET

« \$395

The RAIDEN DKR Jacket has been purposely designed for the rigors of hardcore dual sport riding with both pattern design and material evolutions. The HYCOR waterproof/breathable chassis is Dupont Teflon® coated with all seams sealed – a touch many neglect. After a series of trail testing, ventilation zippers have been relocated to avoid moisture buildup, but still provide maximum ventilation. The main zipper features a gusset and a magnetic storm flap, and the Hydrolock front zipper is a premium touch only found on RAIDEN Jackets.

Use in the Alcan 5000 saw us revise the Thermolite liner to be thicker, but with TechMesh panels built in for more efficient core regulation and more athletic fit.

Half as heavy as its predecessor, the RAIDEN DKR Jacket's HYCOR chassis provides all the waterproofness, and crashability but with less fatigue during extended rides. Removal of excess snaps, zippers and pulls further decreases the weight of the garment and enables a much improved fit.

Competition use in the Baja 1000 led us to slim the profile of the body and arms to not bunch when standing up. The DKR Jacket works with you, instead of against you.

Modularity is key to the RAIDEN DKR Jacket so that you may modify as the ride and conditions change. Twelve pockets, and even a seat pocket, add trail carrying capability. D30® impact protector suite, water pack routing, and three exhaust vents create a chassis that is of the utmost preparedness for whatever your ride may hold.

DKR™ GLOVE

€55

The typical ADV mission requires a quiver of go-to gear. When it comes to gloves, finding a single style that can function in multiple situations is a challenge. The RAIDEN DKR Glove was designed to provide both multi-season and multi-terrain functionality, all at a competitive price point. The sublimated chassis is fully waterproof as dictated by the dual sport rider's creed. An undercuff fitment keeps bulk to a minimum, while integrated neoprene flex panels and multiple closures complete the package.

ARAKIS™ GLOVE

« \$35

The RAIDEN Arakis Glove was built for a split directive with one solution – trail wearability with street toughness. Traditional MotoX gloves provide feel at the limit, but their palms and materials are not suited for the speeds and conditions of the street. The RAIDEN Arakis is the solution. Featuring our proprietary one-piece leather palm for this reason, the Arakis Glove has no seams or stitches to get in the way at the limit while still providing the necessary reinforcement. A mesh backhand delivers breathability, and a D30® knuckle insert is integrated for both fit and reinforcement.

ARAKIS™ PANT

€ 150

The Arakis Pant was initially developed for the rigors of Baja rally competition. High speeds, scorching heat, and physically-demanding terrain were the challenges laid before the Arakis collection. We answered with a fully-vented Fighter Mesh™ chassis, tailored for over-the-boot fit. Nylon crash zone overlays, D30® knee impact protectors, and leather inner leg paneling provide necessary reinforcement. The Arakis is the preferred warm weather kit of TEAM RAIDEN.

DKR™ BOOT

« 265

The RAIDEN DKR collection was built to reimagine what ADV riding can be. Thundering machines, hell-bent on taming both asphalt and earth, can be fickle beasts. They simultaneously require both a heavy hand and the lightest of prods. The RAIDEN DKR Boot was built to tackle the footwear requirements of this dichotomy. Its sleek profile, based on GP boots, is mated to an athletic EVA/rubber bottom unit. This combination provides excellent control and feedback while providing all-day walkability for the dismounted rider. The hinged shin plate is backed with a D30® insert for true riding coverage. Dual straps and full rear-entry zip make the DKR Boot very easy to get on and off. Finally, the entire boot has been engineered to meet the requirements of European testing standard EN 13634:2010 including optional waterproof requirements.

ICON

HELMETS

**ICON HELMETS ARE THE CULMINATION
OF OUR UNIQUE RIDER DRIVEN DESIGN**

Featuring an aggressive style, combined with peerless engineering, has carved ICON a unique niche within the riding community. Our commitment to quality has won us the prestigious J.D. Powers customer satisfaction award, and accolades from riders the world over.

Whether your riding includes blasting high speed circuits, storming the dirt of baja, or strafing pockmarked highways; there's an ICON helmet for you.

VARIANT™ HELMET

THE VARIANT™ SHOWCASES HANDMADE COMPOSITE SHELLS—PREMIUM CARBON FIBER AND FRP MATRIXES. FROM ITS 3D MOLDED SHIELD TO AERODYNAMICALLY OPTIMIZED VISOR, IT HAS A STYLE ALL ITS OWN. FROM STREETFIGHTERS TO SPORTBIKES TO CRUISERS TO ADVENTURE BIKES, THE VARIANT IS FOR THOSE WHO RIDE OUTSIDE OF BOUNDARIES OF CONVENTION. THE VARIANT IS OUR PREMIER ALL-TERRAIN OPTION.

AIRFRAME™ HELMET

THE AIRFRAME™ IS THE HANDMADE JEWEL OF THE ICON LINE. THE HAND LAY-UP CARBON FIBER AND FRP MATRIXES SHELLS PROVIDE OPTIMAL STRUCTURAL INTEGRITY. INTERNALLY, THE DUAL-DENSITY EPS AND WICKING HYDRADRY™ LINER PROVIDE EXCELLENT COMFORT AND FIT. THE AIRFRAME™ IS THE FLAGSHIP SPORT OPTION FOR THOSE WHO DEMAND THE FINEST.

AIRMADA™ HELMET

THE AIRMADA™ BRINGS TRACK LEVEL SPECS TO THE MID-PRICE HELMET CATEGORY. UNIQUE MANUFACTURING PROCESSES ALLOW FOR A SIGNIFICANTLY REDUCED SHELL SIZE, THEREBY REDUCING BOTH WEIGHT AND DRAG. ITS LONG-OVAL HEADFORM, A FIRST IN THIS CATEGORY, OFFERS A RACE FIT WHILE ELIMINATING PRESSURE POINTS. THE AIRMADA™ IS AN OPTIMAL CHOICE FOR THOSE WANTING MAXIMUM PERFORMANCE AT AN ATTAINABLE PRICE POINT.

ALLIANCE™ HELMET

FOR OVER A DECADE, THE ALLIANCE™ LINEAGE HAS COME TO DEFINE STREET STYLE. PROVEN DESIGN, COMFORTABLE FIT, AND SUPERB QUALITY COMBINE FOR MAXIMUM VALUE. THE ALLIANCE™ IS AN EXCELLENT ENTRY POINT INTO THE ICON HELMET FAMILY.

VARIANT™ HELMET

WATCH THE VIDEO

rideicon.com/videos/icon-variant-helmet

It's a matter of survival. In an unforgiving maze of gravel-strewn corners and malevolent steel, a rider needs protection, vision and comfort. The call to arms has been answered. Introducing the ICON Variant™ helmet. The wind tunnel-refined shell, executed in a Fiberglass/Dyneema/Carbon matrix, forms a solid first line of defense. Internally, a dual-density EPS core provides critical Energy Management which reduces transmitted impact forces.

Of course safety is best maintained by avoiding the crash altogether. To this end, the Variant features a reshaped eyeport which provides enhanced peripheral vision. The Variant's™ unique visor system also contributes to improved vision. When properly designed, such as on the Variant™, the visor can help block bright sunlight while producing minimal lift characteristics. Couple this with our Fog-Free coating and it is obvious why the vision aspects of the Variant™ are superior.

Another important method of increasing safety is to reduce rider fatigue. Excessive heat buildup can result in both discomfort and distraction. Neither is a good situation. The Variant's™ extensive venting system works at all speeds, providing necessary airflow to the helmet interior. The airflow works in conjunction with the wicking Hydradry™ liner to effectively reduce heat buildup.

VARIANT™ FEATURES

VARIANT RAIDEN CARBON™ HELMET

« \$550

While its competitors are just repurposed MX shells, the Variant was completely designed to function as the ultimate crossover helmet. Features such as its 3D molded shield: unlike the drape-molded shield of many others, this one provides the utmost in optical clarity across its oversize eyeport. The visor, with integrated supervers, has been designed to block sunlight while reducing lift at speed. The Variant is available with either a Carbon Fiber or Construct shell. Accented with the RAIDEN livery, the Variant is the crowning glory of any ADV rider's kit.

VARIANT THRILLER™ HELMET

« \$395

There's only one thing team ICON likes more than werewolves, and that's Kate Beckinsale all wrapped up in the tightest vinyl vampiric corset. Ahh-wooooo! But once the full moon rises, our street Lycan takes charge. The Thriller is a glow-in-the-dark, no-holds-barred graphic for Variant Nation that rocks it on the blood moon. Much like the werewolf, the Variant is known for its mystical properties, international reputation, and for being purely awesome. Get your fur on.

VARIANT CONSTRUCT HARD LUCK™ HELMET

« \$390

Black ink sleeved across its raw construct shell speaks to the Hard Luck's felonious intent. 13's emblazoned across its flanks sneer politely at the society from which it was ostracized. The Hard Luck will never taste a silver spoon or know the loving embrace of a fat trust fund. It's the helmet for street cowboys looking for anything heavy.

DARK EARTH

VARIANT BATTLESCAR™ HELMET

« \$400

The acrid smell of spent powder hung heavy in the air. The Battlescar's fiber matrix reveals the true nature of its soul. The superficial coatings of paint and clear coats have given way to a mottled vision of earth toned hues. With all pretenses gone, the Variant exposes the crosshatched weave of a seasoned operator. If your travel takes you into harm's way, gear up accordingly.

AIRFRAME™ HELMET

The ICON Airframe™ helmet represents the pinnacle in modern helmet design. The Airframe™ is equipped with multiple safety and comfort features developed through exhaustive research and real world feedback. Premier manufacturing processes assure that the Airframe™ meets or exceeds the high safety standards set by DOT, ECE, PSC and SAI. When fitted properly, the precisely-engineered Fiberglass/Dyneema/Carbon Fiber composite shell and energy-absorbing dual-density EPS liner reduce transmitted impact forces.

To keep you focused on what's ahead of you, the Airframe is fitted with ICON's Proshield™. Not only is the Proshield™ available in a variety of tinted styles with side plates for more graphic real estate, but it also features the Prolock™ shield lock system to keep your shield locked down, even during those high-speed head-checks. We know people come in all shapes and sizes, so why not helmets? The Airframe™ is available in XS-3X with cheekpads that are interchangeable across the entire size range for tailoring just the right fit. Additionally, the HydraDry™ moisture wicking material used throughout the interior comfort liner and extensive venting system combine to produce the industry's most ventilated and comfortable helmet.

AIRFRAME™ FEATURES

*World standard, meets or exceeds the following: DOT FMVSS 218 (US), ECE 22-05 (EUROPE), SAI AS1698 (AUSTRALIA) & PSC (JAPAN) SAFETY AND TESTING STANDARDS. DOES NOT SHIP WITH SAI OR PSC CERTIFICATION STICKERS UNLESS PURCHASED FROM AN AUTHORIZED DEALER IN THAT COUNTRY.

- Fiberglass/dyneema/carbon fiber shell
- Medium oval headform
- Wind tunnel tested and refined
- Multiple oversized intake and exhaust ports
- Removable molded breath deflector reduces shield fogging
- Quick-change fog-free proshield™ with sideplates
- Fully removable/washable hydradry™ interior
- Rear spoiler for reduced helmet buffeting
- Prolock™ secure shield locking system
- Removable chin curtain

BLACK

AIRFRAME STATISTIC™ HELMET

€ \$390

The Airframe Statistic is testament to the engineering, design, and execution that ICON has pioneered for over a decade. To showcase this attention to detail, the Airframe Statistic's tri-composite shell features a black construct finish. This treatment peers into the very structure of the helmet, and is unique to each piece.

AIRFRAME SAUVETAGE™ HELMET

« \$375

You can't stand it! You know we planned it! We're gonna set straight this leopard state. Oh my God, it's a mirage. I tell y'all, it's Sauvetage! Full-coverage leopard print over a raw finished shell sets the Airframe Sauvetage apart from its wallflower brethren. Far apart. Complement this Serengeti stance with toothy fish grin and the result is clear...a graphic faux pas fit for only the bravest hunter. Do you have what it takes to ride the dandy cat?

AIRMADA™ HELMET

WATCH THE VIDEO

rideicon.com/videos/icon-airmada-helmet/

10 years of pushing the envelope, of going above and beyond. A decade of creating technologically advanced products designed by and for the needs of the street rider: you. The Airmada™ is the end result of all our hard-earned experience in an industry that doesn't tolerate second best. This is our highest evolution of helmet craftsmanship and you'll realize this from the moment you take off.

The first thing you'll notice is the new low profile shell, which now comes in four separate sizes to better fit a variety of riders. The energy absorbing dual-density EPS liner uses our rider-preferred oval head form and comes in a further five sizes to offer a personalized fit without an ounce of wasted space. The effort to reduce the helmet size combines with the tough polycarbonate shell to create a helmet that fits better, is ridiculously light, and still maintains the exclusive WORLD STANDARD of ICON to suit your riding style.

With fit and function in mind, the designers of the Airmada™ focused on bringing rider comfort to a new level. The Airmada™ keeps you cool when the pace heats up. The SuperVent™ system has been completely revamped with even more effective ventilation and exhaust porting across the helmet. The new Ventral Primary™ intake improves the Airmada's™ cooling airflow in ways other helmets can only dream of, and long nights were spent improving the ergonomics and function of the venting controls. Designed and positioned to make on-the-fly adjustments quick and easy, the Airmada™ is built from the ground up to offer perfect comfort for any riding condition.

Even the shield system has been completely redesigned to give riders the best view of the road ahead. The new Rapid Release™ shield removal system allows you to change an ICON Optics™ shield in a fraction of a second. This cutting-edge system allows you to select the right shield for the conditions, all of which produce an unrivaled distortion-free line of sight to what lies ahead. The ICON® Airmada™ once again sets the standard for the ideal street helmet.

AIRMADA™ FEATURES

*World standard, meets or exceeds the following:
DOT FMVSS 218 (US), ECE 22-05 (EUROPE), SAI AS1698 (AUSTRALIA) & PSC (JAPAN)
SAFETY AND TESTING STANDARDS. DOES NOT SHIP WITH SAI OR PSC CERTIFICATION
STICKERS UNLESS PURCHASED FROM AN AUTHORIZED DEALER IN THAT COUNTRY.

- Injection molded polycarbonate shell for strength and durability
- Recessed twin channel SuperVent™ with industry leading intake and exhaust ports for increased cooling
- Fog-free ICON Optics™ shield with Prolock™ shield locking system
- Adjustable chin and forehead venting system maintains continual temperature for increased comfort in any riding situation
- Rapid Release™ shield change system
- Removable molded breath deflector helps prevent fogging
- Fully removable washable HydraDry™ moisture wicking interior
- Easy adjust ergo vent switch for superior airflow control
- Available in four shell sizes with an ICON exclusive long oval headform for ultimate fit and comfort

AIRMADA SHADOW WARRIOR™ HELMET

« \$250

Twin-spar warriors drift between dimensions, delivering justice via blade. The Airmada Shadow Warrior is a samurai in ninja colors, a jowl-pierced statement of intent, and the historical accuracy of The Last Samurai. No good deed goes unpunished; just make sure you're the one doling it out.

AIRMADA LUCKY LID 2™ HELMET

« \$280

Velvet ropes and oxygen pumps push that nagging voice of restraint back where it belongs. This could be the adoring gaze of biddies all around, as well. Could be the blue pill-induced tinglies, too. Your confidence is not without merit. You've been on the top of the game for decades; the chips always fall in your favor. But where luck is optimistic, fate is vicious. Always be wary of the flop, because when the chips fall, they fall hard.

AIRMADA ELEMENTAL™ HELMET

« \$255

Speed is a fragile dichotomy. One must tread the line between rage and restraint; splintering highside or last-lap heroics; to wait for the next bend, or to dive headfirst on the inside line. The Airmada Elemental is both sides of the coin. Play it cool, or come in hot: the choice is yours.

AIRMADA MISCREANT™ HELMET

€ 250

We asked the master cylinder what side he preferred. His response was as arcane as it was anecdotal: "Prettier than a blue-nosed mule and half as wide." It was an odd response to an even odder graphic. Rumor has it that we wouldn't release this graphic due to its graphic nature. So naturally we did. Get it?

AIRMADA SALIENT™ HELMET

« \$255

Analog has lost the battle to digital. Today's motorcycles use a cascading symphony of 0's and 1's to facilitate the finite line between glory and gravel. Embrace the digital. Wield the electronic bursts as a tool of your own command. Become the bionic hypersport creation hell-bent on the perfect line. The Salient epitomizes this bold new era. The time for nostalgia is over; the era of computer-enhanced pavement terror has begun.

AIRMADA BRITTON™ HELMET

« \$280

An embodiment of the street sportbike style and attitude Jason Britton and ICON have come to define 'street' for over a decade. To celebrate this association, we've created the Jason Britton Airmada Signature helmet. Designed with his feedback, and placed on our newest helmet chassis, the Britton Airmada Signature is both an homage to ICON styles of the past, while simultaneously pushing the graphic and color envelope ever forward. As always, Jason and ICON invite you to Ride Among Us.

AIRMADA PARAHUMAN™ HELMET

« \$250

It has always been a matter of time before the line between organic and synthetic was irrevocably blurred. In the beginning the merger between man and machine was slow, a bio-implant to aid metabolism, an amp to focus the thoughts of the easily distracted... Not even the boldest of the techno-idealists dared dream of such a nightmare as the reality that would befall them. Separating flesh from silicon does not leave a clean cut, but rather a gaping tear. Within this fully exploited void is the Airmada Parahuman.

AIRMADA CHAINBRAIN™ HELMET

« \$245

Working the saw is an acquired taste. Few have the stomach for the toothy language of the chain. You give the pull cord a good jerk, kill the choke, and then drop the bar. Once engaged, the saw devours with the intensity of a puppy discovering an unattended bag of kibble. There is no strength strong enough to hold back its voracious hunger. The goalie mask is just for panache.

ALLIANCE™ HELMET

Evolved & refined. ICON has never been satisfied with the status quo—which is why we created the new ICON Alliance™ helmet. Based on the proven Alliance SSR™, this next gen helmet is fitted with a multitude of key refinements. The first revision is the new EPS liner. We've listened to the customers' requests and reshaped the EPS liner into a more oval geometry. This new headform increases rider comfort by slightly elongating the entire inner circumference. Combine this geometry with our removable Hydra-Dry™ wicking comfort liner and the result is a nearly perfect rider-focused enclosure. To further increase rider comfort, we've revised the entire venting system. Much like a finely tuned motor, we've reshaped and enlarged the intake and exhaust ports for increased airflow.

Additional ventilation ports have also been added to the lateral aspect of the helmet to further increase ventilation. The shield itself has been upgraded to ICON's distortion-free Pro-Shield™. The Pro-Shield™ features the ProLock™ shield locking system, graphic enabled sideplates, fog-free coating, and a no-tools shield change interface. Continuing with our commitment to excellence, the Alliance™ is constructed with premier manufacturing processes and stringent quality assurance procedures. This, combined with rigorous testing, assures that the Alliance™ meets or exceeds the high safety standards set by DOT, ECE, PSC and SAI.

ALLIANCE™ FEATURES

*World standard, meets or exceeds the following:
DOT FMVSS 218 (US), ECE 22-05 (EUROPE), SAI AS1698 (AUSTRALIA) & PSC (JAPAN)
SAFETY AND TESTING STANDARDS. DOES NOT SHIP WITH SAI OR PSC CERTIFICATION
STICKERS UNLESS PURCHASED FROM AN AUTHORIZED DEALER IN THAT COUNTRY.

- Injection molded polycarbonate shell for strength
- Long Oval Headform
- Wind tunnel tested and refined
- Molded twin channel supervent for increased cooling
- Rear exhaust ports prevent heat buildup
- Removable molded breath deflector reduces shield fogging
- Chin venting system reduces shield fogging
- Fully removable/washable HydraDry™ interior
- Quick-change fog-free Proshield™ with sideplates
- Prolock™ shield locking system

ALLIANCE BERSERKER™ HELMET

« \$185

A fruity-pebbled Saturday morning sugar rush splayed onto our Alliance helmet. The ICON Berserker beckons from a far-off galaxy, where heroes roam on neon beasts of justice. You may not be responsible for keeping ancient evils away every Saturday at 8, but you can sure ride like it.

GET UP, STAND UP

From the artist that brought you the Ravenous and Sugar, the latest Mumford special is a new riff on an old theme. A grimacing lion dominates the front, left, and right while the red, yellow, and green swirl across its flanks. No matter what time it is where you're at, it's always 4:20 somewhere.

LEATHER CLEANER

LEATHER CONDITIONER

ICON™ LEATHER CARE

« \$7

When your ICON leather is new, it is at the correct pH and is fully lubricated. Over the miles, harsh UV rays, countless bug strikes, and a myriad of road grime mount a mighty assault on your leather. In order to counteract these wicked forces of filth, we contacted the masters of leather preservation, Lexol®, and formulated the finest leather cleaner and conditioner available. ICON Leather Cleaner by Lexol® is a blend of selected, PH balanced cleaning agents designed to clean leather safely and thoroughly without harshness. ICON Leather Conditioner by Lexol® is designed to maintain the strength, beauty, and utility of leather - and to restore resiliency to old or neglected leather that has become hardened and stiff.

D30® PROTECTOR

REPLACEMENT PARTS

BACK / ELBOW / SHOULDER / KNEE / HIP PROTECTORS

D30® impact protectors are made from an advanced patented polymer. D30® impact protectors utilize intelligent molecules that lock together on impact. Because of this, the impact protector can be made thinner and lighter, making a jacket more comfortable and easier to wear. However, this decreased size does not come at the expense of impact protection.

HELMET FITMENT

HELMET SIZING INFORMATION

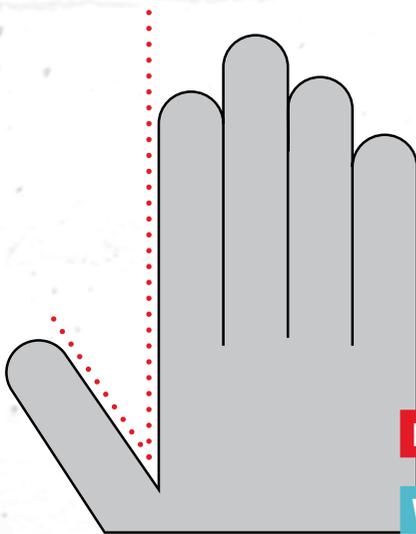

To achieve proper helmet fitment, begin by finding your head circumference size using the method described below. Remember that the helmet size you choose should fit around the crown of your head comfortably with no pressure points. The cheekpads should fit firmly around your face. Once your chin strap is fastened, grab the chin bar of the helmet and move it side to side. Your cheeks should move with the helmet, which should not slide across your face. Different thickness cheekpads can be purchased to obtain the perfect fit. Ask your dealer or visit www.rideicon.com for more information.

HEAD MEASUREMENT INSTRUCTIONS

Wrap a flexible tape measure around your head approximately one inch above the eyebrows and ears. Use this measurement (in either inches or centimeters) to find your helmet size in the chart below.

HELMET SIZING CHART

GLOVE FITMENT

HOW TO DETERMINE YOUR GLOVE SIZE

ICON glove size is determined by measuring the width of your palm at its widest point - a little below the knuckles. To get this measurement, place your hand on the page as shown with the crook of your thumb positioned at the "V" intersection of the two dotted lines and on top of the Men's and Women's measuring bars.

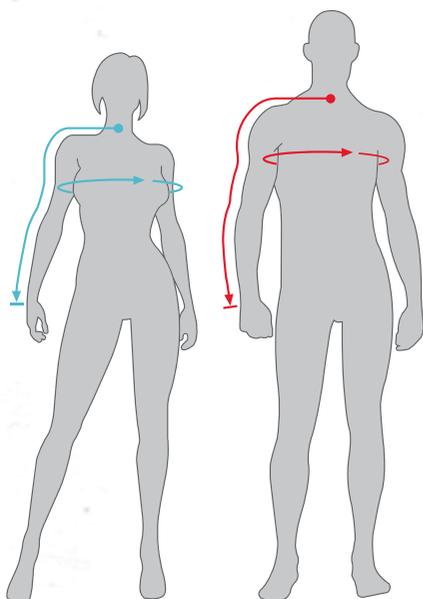

THIS CHART SERVES ONLY AS A GUIDE. TO ENSURE THE PROPER FIT ALWAYS TRY ON THE REAL PRODUCT.

MENS	S	M	L	XL	2XL	3XL	4XL
EUROPE	7	8	9	10	11	12	13
WOMENS	S	M	L	XL	2XL		
EUROPE	6.5	7	7.5	8	8.5		

JACKET FITMENT

JACKET SIZING INFORMATION

There are three variables to consider when sizing an ICON jacket. The first two are the chest and sleeve measurements, which are what your jacket size is based on. The third is the jacket fit type, which defines the "cut" of the jacket (Attack, Sport, or Relaxed). Instructions, sizing charts and jacket fit details can be found below. The fit type of every Icon jacket can be found in the first bullet point of the copy block for that individual product.

CHEST MEASUREMENT INSTRUCTIONS

While standing with your arms relaxed at your side, wrap a flexible tape measure around your chest at its largest point. The tape measure should go through your armpit and stay parallel with the floor while taking the measurement.

SLEEVE MEASUREMENT INSTRUCTIONS

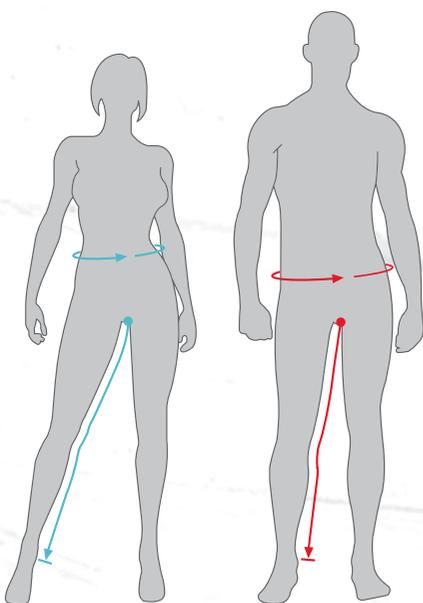

While standing with your arms relaxed at your side, place one end of a flexible tape measure on your spine at the base of your neck. Measure over the top of your shoulder, down over the point of your elbow, and finish at the wrist bone.

MENS JACKET SIZING CHART

SIZE	XS	S	M	L	XL	2XL	3XL	4XL	5XL
CHEST	34 - 36"	36 - 38"	38 - 40"	40 - 42"	42 - 44"	46 - 48"	48 - 50"	52 - 54"	54 - 56"

SLEEVE	29"	29.5"	30"	30.5"	31"	31.5"	32"

PANT FITMENT

PANT SIZING INFORMATION

There are three variables to consider when sizing ICON pants. The first two are the waist and inseam measurements, which are what your pant size is based on. The third is the fit type of the pant. Measurement instructions and sizing charts can be found below. The fit type of every ICON pant can be found in the first bullet point of the copy block for that individual product.

WAIST MEASUREMENT INFORMATION

While standing in a relaxed position, measure around your natural waistline, while keeping the tape measure parallel to the floor.

INSEAM MEASUREMENT INFORMATION

While standing in a relaxed position, measure the total length of the inside of your leg, from crotch to ankle.

MENS PANT SIZING CHART
