PIVOT *INSULATED*

Introducing the newest design to our Pivot line, the re-imagined Pivot 6. The Pivot 6 keeps the budget conscious rider in mind while still providing them with exceptional quality features like its fully waterproof and insulated 300D polyester chassis. We have removed the hood and added new underarm venting to keep temperature regulated all ride. Like previous Pivot models, Pivot 6 is also highlighted by reflective areas on the forearms and features a new reflective area between the shoulders on the upper back.

LAYERING

LAYERING SYSTEM

A proper Layering System is the key to staying warm and dry while riding. Choosing the right layering garments is the first step towards this goal. Cotton based products are absolutely not part of a Layering System. This includes sweatshirts and denim products.

During the activity of snowmobiling you generate moisture (sweat). The harder you ride, the more moisture you generate. Cotton products trap this moisture, which in turn, transmits cold directly to your body.

EVAPORATOR WICKING BASE LAYER

An effective layering system starts with a base layer which wicks moisture (sweat) away from your body. This base layer must be worn directly against the skin. Our Evaporator gear, made from a wicking quick-dry material, is the recommended base layer for the Arctiva layering system.

- LIGHT-WEIGHT, EXTREMELY BREATHABLE, POLYESTER
- QUICK DRYING FABRIC REMOVES MOISTURE AWAY FROM SKIN TO KEEP YOU DRY AND COMFORTABLE
- CREW NECK ON JERSEY, SOFT ELASTIC WAISTBAND ON PANT AND SIMPLE SLIM HEM DESIGN FOR COMFORT
