HI-4N IGNITION MODULE KIT

- More power than the stock ignition
- •Single-fire and dual-fire function built into a single module
- •All-metal housing provides improved heat dissipation •Ignition advance and timing degree markings are on the metal flange
- •Convenient cable notch in the housing makes installation easier and prevents damage to the cable
- •Sensor and magnet housings are built into the all-metal back plate to protect the sensors from damage during installation
- •Sensor housings contain advanced flux concentrators with high-temperatureresistant samarium/cobalt magnets for accurate, reliable ignition triggering
- •Electronics are fully enclosed to resist vibration, moisture and dirt
- •All electronics are mounted directly to the metal housing, which acts as a heat sink
- •Four rotary switches for ignition mode selection, advance rate, and rev limit
- •Switches provide accurate, repeatable settings
- •PART #2101-0345 includes HI-4N ignition module only; PART #2101-0346 includes ignition module, S&S ignition coil and correct-length spark plug wires

•Made in the U.S.A.

REPLACEMENT **BATTERY HOLD-**DOWN BRACKET

COMPLETE BIKE HARNESS

- •The perfect start for any project bike or OEM model re-wire
- •Complete bike harness w/ starter relay, 3-circuits, selfcanceling and run, brake and turn signal module
- •Works with any stand alone, Evo or Twin Cam ignition system
- •Designed to operate with a two-position key switch
- •Key start switches can be used with a simple wiring modification (ignition system and key switch are not included with this harness)
- •OEM color-matching harness with 11-second self-canceling turn signal module
- Fuse block holds a full size, commonly available and replaceable starter relay and three (3) ATO fuses
- •A 30-Amp circuit breaker is installed and is ready for any regulator/ charging system
- •Harness provides running light and turn signal functions to the front turn signals, run, brake and turn signal functions for the rear turn signals
- •Oil, neutral, high beam and turn signal indicator wiring
- Color-matching handlebar switch wiring, as found on most 96-13 models (except Dresser models)
- Headlight wiring with headlight socket and terminals
- •Front turn signal connectors and terminals
- •Rear fender harness with connectors and terminals
- •Key switch wiring with ring terminals
- •Coil wire with ring terminals, tachometer, horn, oil sending unit, brake switch and neutral switch wiring with terminals
- •Sections of 3/16", 1/4", 3/8" and 1/2" i.d. heat shrink included
- •Heavy-gauge, 12 (+) power and (-) ground wires with terminals for battery connection
- . Made in the U.S.A.

WELD-ON IGNITION MOUNTING TAB

- •Most ignition switches have a 'D' shaped body so they don't rotate when you turn the key
- •However, most people don't have the necessary $^{13}/_{16}$ " wide D-shaped drill bit, so we made this convenient weld-on tab out of $^3/_{16}$ " thick mild steel
- •This tab accepts most style ignition switches
- •Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0502-0523	Weld-on ignition mounting tab	\$5.95

SPUN STEEL FENDERS

- •Bare steel fenders made from 15-gauge steel
- •Fenders are individually handmade and are the perfect fit for vintage-style tires
- •Hug the tire, but allow adequate clearance and follow the profile of the tire exactly
- •271/4" diameter, measured tip to tip
- •Made in the U.S.A.

EXTENDED FLOAT BOWL SCREWS

- •Anyone who has ever had to make several jet changes, or dropped their float bowl on the side of the road, knows how difficult-to-reach stock float bowl screws can be
- •Carb Extended Float Bowl Screws solve this issue
- •Included in this set are four brass hex head extended screws with steel threads
- •When installed not only do they look great, but they make removal of the float bowl easy and fast . Made in the U.S.A.

COMPLETE BIKE HARNESS

- •The perfect start for any project bike or OEM model re-wire
- •Complete bike harness w/ starter relay, 3-circuits, self-canceling and run, brake and turn signal module
- •Works with any stand alone, Evo or Twin Cam ignition system
- •Designed to operate with a two-position key switch
- •Key start switches can be used with a simple wiring modification (ignition system and key switch are not included with this harness)
- •OEM color-matching harness with 11-second self-canceling turn signal module
- •Fuse block holds a full size, commonly available and replaceable starter relay and three (3) ATO fuses
- •A 30-Amp circuit breaker is installed and is ready for any regulator/charging system
- •Harness provides running light and turn signal functions to the front turn signals, run, brake and turn signal functions for the rear turn signals
- •Oil, neutral, high beam and turn signal indicator wiring
- •Color-matching handlebar switch wiring, as found on most 96-13 models (except Dresser models)
- •Headlight wiring with headlight socket and terminals
- •Front turn signal connectors and terminals
- •Rear fender harness with connectors and terminals
- •Key switch wiring with ring terminals
- •Coil wire with ring terminals, tachometer, horn, oil sending unit, brake switch and neutral switch wiring with terminals
- •Sections of $^3/_{16}$ ", $^1/_4$ ", $^3/_8$ " and $^1/_2$ " i.d. heat shrink included
- •Heavy-gauge, 12 (+) power and (-) ground wires with terminals for battery connection
- •Made in the U.S.A.

8MM SUPPRESSION CORE CLOTH SPARK PLUG WIRE SETS

- •Plug wires are cotton-braided and lacquered
- •Suppression core conductor with silicone insulation for top performance and heat resistance
- •Set contains 48" of 8mm plug wire with finned, rubber, 90° spark plug boots, as well as a pair of rubber coil boots and high-tension terminals for both ends of the plug wires
- •Designed for motorcycles running modern electronic ignitions and will not cause RFI interference
- •Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL

HI-4N IGNITION MODULE KITS

- •More power than the stock ignition
- •Single-fire and dual-fire function built into a single module
- •All-metal housing provides improved heat dissipation
- •Ignition advance and timing degree markings are on the metal flange
- •Convenient cable notch in the housing makes installation easier and prevents damage to the cable
- •Sensor and magnet housings are built into the all-metal back plate to protect the sensors from damage during installation
- •Sensor housings contain advanced flux concentrators with high-temperature-resistant samarium/cobalt magnets for accurate, reliable ignition triggering
- •Electronics are fully enclosed to resist vibration, moisture and dirt
- •All electronics are mounted directly to the metal housing, which acts as a heat sink
- •Four rotary switches for ignition mode selection, advance rate, and rev limit
- •Switches provide accurate, repeatable settings
- PART #2101-0345 includes HI-4N ignition module only;
 PART #2101-0346 includes ignition module, S&S ignition coil and correct-length spark plug wires
- •Require timing rotor OEM # 32402-83 (not included)
- •Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
FOR 70-85 XL		
2101-0346	HI-4N ignition module, ignition coil and plug wires	\$409.95
2101-0345	HI-4N ignition module only	296.95

12V CHROME IGNITION COIL

- •Increases peak spark voltage by 20% or more
- •Improves starting, stops high-speed misfires, increases mileage and overall performance
- •30,000V output
- •2" on-center mounting holes

PART #	DESCRIPTION	SUG. RETAIL
2102-0321	2.4 ohm/electronic ignition/single-fire	\$84.95

BLACK WHISKEY THROTTLE TUBE

- •CNC-machined 6061 T-6 aluminum throttle tube
- •Allows owners to replace the thick, generally uncomfortable stock molded one-piece grips with soft aftermarket grips
- •The CNC-machined cable channel has barrel openings for two cables

PART #	DESCRIPTION	SUG. RETAIL
0632-0700	Black hrottle tube	\$49.95

BRAKE CALIPER SEAL KIT

- •Neoprene seals are required when rebuilding calipers on Harley models
- •Includes seal and dust boot
- Sold each

PART #	DESCRIPTION	SUG. RETAIL
1702-0251	For 74-77 XL single disc front;	
	repl. OEM #s 44278-74, 44277-74	\$7.95

- HELIX ALL FUEL LINE •Specially formulated fuel line for the powersports industry
- •Chemically engineered to withstand any concentration of alcohol in all types of fuel
- •Remains flexible and will not harden or crack when in use
- •EPA certification SGN-ENAPNR-0A-03, C.A.R.B. E.O. #Q-09-028 for modern OEM fuel line replacement
- •Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0706-0259	1/4" i.d. x 3'	\$18.95
0706-0260	1/4" i.d. x 10'	59.95
0706-0261	1/4" i.d. x 25'	125.95

HIGH-PRESSURE FUEL LINE

- Premium polyurethane tubing
- •85 durometer provides superior abrasion, kink, tear, oxidation and chemical resistance
- •Includes a very strong nylon inner band yet remains flexible
- •Operating temperature -40° F to 155° F; melting temperature 370° F
- •Withstands up to 200 PSI
- •Made in the U.S.A.

NOTE: Do not use with fuel containing more than 10% alcohol.

0706-0241	Clear	\$38.95
0706-0242	Red	38.95

FILTROMAX OIL FILTER MOUNT BRACKET

- •Stainless steel bracket mounts a FiltroMax Remote Oil Filter Mount (sold separately) between the front motor mount plates
- Bracket works with all stock frames and most aftermarket rigid frames
- •Includes two 5/16"-18 x 5/8" stainless steel Allen head bolts for installation
- •Bracket replaces the washers on one of the front motor mount plates spacers when installed for a clean, simple installation
- . Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0712-0473	For 57-85 XL	\$22.95

WING TABS

- •Made from 1/8" cold rolled mild steel, CNC laser cut with a 5/16" hole
- The bent gussets add substantial strength in comparison to standard flat tabs
- •Tabs measure 1.5" tall x 1.8" wing-to-wing
- •Sold in a 4-pack
- Made in the U.S.A

PART #	DESCRIPTION	SUG. RETAIL	
0502-0525	Wing tabs	\$15.95	

1401-0487

WELD-ON IGNITION MOUNTING TAB

- Most ignition switches have a 'D' shaped body so they don't rotate when you turn the key
- •However, most people don't have the necessary 13/16" wide D-shaped drill bit, so we made this convenient weld-on tab out of 3/16" thick mild steel
- •This tab accepts most ignition switch styles
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0502-0523	Weld-on ignition mounting tab	\$5.95

SPUN STEEL FENDERS

- •Bare steel fenders made from 15-gauge steel
- Fenders are individually handmade and are the perfect fit for vintage-style tires
- Hug the tire, but allow adequate clearance and follow the profile of the tire exactly
- •271/4" diameter, measured tip to tip
- •Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1401-0487	16" x 6"	\$199.95
1401-0488	18" x 5.5"	199.95

FENDERS

- Classic style fits well on vintage and custom bikes alike
- •Feature a flared duckbill and subtle stamped branding
- •Radius fits 18" tires, as well as vintage-style 16" tires
- •Available in your choice of raw steel or aluminum in 7" width

PART #	DESCRIPTION	SUG. RETAIL	PART #	DESCRIPTION	SUG. RETAIL
1401-0492	Steel	\$224.95	1401-0493	Aluminum	\$174.95

CAST STEEL FENDER BRACKET

- Raw cast steel with 3/8" holes.
- 2" center-to-center
- Meant for welding to the seat crossbar on rigid frames
- •Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1410-0114	Weld-on fender bracket	\$54.95

- •Distinctively chromed 40-hole steel rims
- •Dimpled to accept almost all spoke lacing patterns
- •Side metal valve (SMV) or side rubber valve (SRV) stem types
- •Measure 3" x 16"; for use with 5.00/5.10 motorcycle tires

PART #	DESCRIPTION	SUG. RETAIL
0210-0323	3" x 16" rim; repl. OEM #43007-40A (SRV)	\$84.95
0210-0324	3" x 16" rim; repl. OEM #43085-81 (SMV)	84.95

SPOOL HUBS

- Polished and ready to lace up to a 40-spoke front rim
- Precision-machined 6010-T6 aluminum, with alloy bearing spacer rube and high-quality Japanese wheel bearing installed
- Large 3" flange diameter increases strength and stability, and accepts 3/4" axle

NOTE: Hubs require a set of custom spokes.

PART #	DESCRIPTION	SUG. RETAIL
0213-0628	Chopper	\$199.95
0213-0629	Flat track	199.95

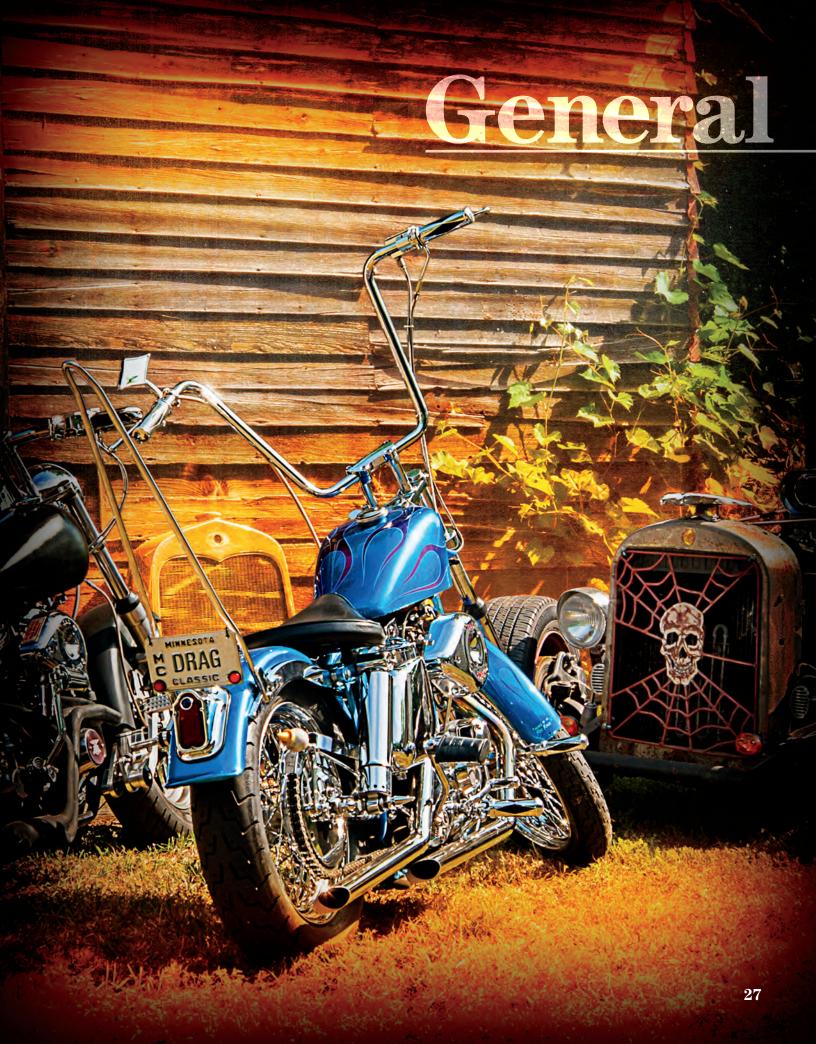

LOCKDOWN **AXLE KIT**

- •Replaces weak OEM axle nut washer with special slotted axle nut washer, as well as stronger swingarm end caps that have a better fit into the swingarm
- . Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0214-0838	For 73-85 XL	\$80.95

GENERAL

COBRA AV71

CRUISER/TOURING/CUSTOM TIRE

- •Snakeskin sidewall effect complements the Cobra logo and tread design; a truly unique custom look
- •Advanced Variable Belt Density (A-VBD) rear construction uses a densely wrapped belt in the center of the tire for stability, wear and mileage; belt is less dense on the shoulder for a huge, compliant contact patch (most sizes)
- •Force Following Grooves (FFG) for reduced tire noise, increased wear resistance, improved stability and better resistance to cupping
- •Lifetime Profile Engineering (LPE) for consistent handling and stability for the full life of
- •Wide Custom Tread Arc (WCTA) tire profile for improved maneuverability at all speeds
- •Enhanced Aqua Flow (EAF) tread pattern gives optimal water dispersal
- •Enhanced Stability System (ES) design reduces tire flex for improved grip and stability
- •Tubeless blackwall (BLK)
- •H-rated for speeds up to 130 mph

MIGHTY TIRE IRON

- Long heavy-duty tire iron for increased leverage
- Handle design eases workload by reducing discomfort and fatigue
- •Measures 17.5" from tip of spoon to tip of handle
- The iron is made of chrome vanadium and the spoon design prevents pinching of tubes
- Sold each
- •Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
3810-0068	Mighty tire iron	\$34.95

MINI TIRE IRON

- •The perfect size for tool boxes/pouches
- Double-sided
- •Spooned end prevents tubes from pinching
- •8" from end of spoon to end of spoon
- Sold each
- . Made in the U.S.A.

DESCRIPTION	SUG. RETAIL
Mini tire iron	\$17.95

SAFETY WARNING: When selecting custom wheels, the tires used for your application must have a load index and speed rating equal to or greater than the tires fitted as original equipment. Consult manufacturer's publication(s) and/or website(s) for complete tire information.

GENERAL

SPORTSTER MOTOR STAND

- •Heavy-gauge steel construction and durable black powdercoat
- Perfect for cradling your Sportster motor
- ·Made in the U.S.A.

PART # **DESCRIPTION** SUG. RETAIL 3801-0262 For 57-85 XL \$79.95

STEERING HEAD RACE PULLER

- •Designed to quickly and precisely remove outer bearing race from the steering head without the use of a hammer and punch
- •Puller design ensures bearing is pulled perfectly straight to eliminate possible damage to frame
- •Works on all tapered bearing races with 47mm to 52mm O.D.
- •Brass bearing washers for easy use and long life
- •Hardened steel jaws engage securely on inner bearing lip

PART #	DESCRIPTION	SUG. RETAIL
3805-0133	Steering head race puller	\$59.95

TAPPET BLOCK/OIL PUMP ALIGNMENT TOOL

- •Use whenever tappet blocks are removed, or even just loosened •Tappet blocks do not have counter-bored bolt holes; therefore, they
- should be reinstalled using an alignment tool to ensure that the lifters track properly on the camshaft
- •This tool ensures the durability of your installation work and makes the process quick and easy
- •Two tools required
- Sold each

HALO 800 LM FLASHLIGHT

- •Rigid Industries' Halo Torch is one of the most powerful, most versatile LED flashlights on the market
- •Offers five modes of operation: High, Medium, Low, Flasher, and SOS
- Combines the latest in US-made LEDs with a machined-aluminum reflector to achieve extremely high output in a small package
- •A nice wide beam for area illumination and, when set to High, it produces 800 raw lumens with a focused center that projects 1,000 feet
- •At roughly the same size as a Mini Maglite®, the Halo Torch has almost 10 times more light output
- •Can run for almost 3 hours on a full charge and is impact- and water-resistant
- Kit includes a rechargeable battery and both a 110V wall charger and an AC/DC 12V charger for your vehicle
- •Made in the U.S.A.
