MOTORCYCLES**

FUELING THE MARKET

The Victory and Indian V-Twin market is running strong, and the **2017 PARTS UNLIMITED/Drag Specialties Victory & Indian Catalog** is ready to meet this demand and fuel your dealership for 2017! We've expanded our catalog to include even more parts and accessories from the top brands – everything from custom exhausts to seats, windshields and more!

Combine this catalog with the other Drag Specialties and Parts Unlimited catalogs, including the all-new *Tires, Tools, Chemicals & Lubricants, Cleaners & Polishes and Transport & Trailer Catalog*, for the best set of sales tools in the industry.

We constantly are adding new products! Please check PartNetWeb and DragNetWeb all year long, as well as the *2017 Parts Unlimited Street* catalog for the latest and greatest products this high-octane industry has to offer!

PARTS UNLIMITED – SUPPORTING THE DEALER, THE CUSTOMER AND THE ENTIRE SPORT.

IMPORTANT INFORMATION: EMISSIONS AND NOISE REGULATIONS

NOTE: The California Air Resources Board ("CARB") does not permit the use of aftermarket emissions-related part(s) that alter the performance of OEM emissions-related devices unless CARB has issued an Executive Order, other than on racing vehicles on closed courses. Check your local laws and manufacturer's information. More California exhaust information is available at www.arb.ca.gov/.

NOTE: Aftermarket products, including but not limited to exhausts, catalytic converters, oxygen sensors, fuel/air controller modules, air filter kits, camshafts, O₂ eliminators, and carburetors and jet kits which alter, modify, or replace emission control devices or systems of an originally compliant highway motorcycle, are not legal for sale or street use in California unless they have been issued a CARB Executive Order. Aftermarket emissions-related products which have not been issued an Executive Order or which are not aftermarket Replacement Parts, as defined in Title 13, California Code of Regulations, Section 1900(b)(2), are authorized for closed circuit race use only. Products shown may be designed, manufactured, intended and sold for closed circuit race use only and use of the same on public roads or lands may be a violation of local, state and/or federal laws. See manufacturer's information and state and local laws to determine what is authorized for your use on your vehicle.

The following emissions-related defined terms are used in this catalog (PARTS WITH THE FOLLOWING DESIGNATIONS IN THIS CATALOG ARE NOT ILLEGAL FOR SALE IN CALIFORNIA UNDER CARB REGULATIONS):

- "CARB E.O." means the specified Executive Order issued by CARB. An Executive Order constitutes an exemption by CARB from CA Vehicle Code 27156 and 38391, for sale of the part number for the make/model/year fitment(s) specified in the Executive Order.
- "Replacement Part" means any aftermarket part intended to replace an original equipment emissions-related part and which is functionally identical to the original equipment part in all respects which in any way affect emissions (including durability), or a consolidated part.
- "Qualified Manufacturer Declared Replacement Part" means any aftermarket part intended to replace an original equipment emissions-related part and which is functionally identical to the original equipment part in all respects which in any way affect emissions (including durability), or a consolidated part, that has been evaluated and declared by the manufacturer to meet this definition and carry this categorization and designation label. This manufacturer has declared in writing that it has documentation, based upon sound engineering judgment, indicating the replacement part does not reduce the effectiveness of any required emission control device and it does not cause the modified vehicle/engine/equipment to exceed applicable emissions standards for that make/model/year fitment(s) advertised.

NOTE: Products shown may not conform to federal, state or local noise regulations.

WARRANTY: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e. cam timing, carburetor, etc., and is not caused by defective manufacturing. See the Chemicals and Lubes section for products that will help prevent or remove blueing. Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

WINDSHIELD TRI-POUCH FOR VICTORY CROSS COUNTRY 10-16, MAGNUM 15-16

- Constructed of marine-grade vinyl
- Incorporates a large 7" x 4" clear cell phone pocket on a generous 8" x 4" x 2" center compartment
- Cell phones, MP3 players or other devices load from the inside sleeve, keeping rain out and devices dry
- Clear UV-stabilized surface allows easy screen reading and will hold up in the toughest environments
- Two end storage pouches measure 4¹/₂" x 3" x 1¹/₂" for gloves, garage door openers or more
- Hook-and-loop closure

SUG. RETAIL **\$79.95** PART # **3508-0045**

HIDE A KEY POUCH

- Made from weather-resistant, marine-grade vinyl
- Hides an extra key on your bike to keep it clean and ready to use should the need arise
- 6" hook-and-loop strap provides a secure fit that will not give way, even under the harshest conditions
- Measures 3¹/₂" L x 2¹/₄" W to fit even the largest keys
- Available in black
- Made in the U.S.A.

SUG. RETAIL **\$8.95**

PART # **3550-0273**

SADDLEBAG LID BRAS FOR VICTORY CROSS COUNTRY, CROSS ROADS MODELS W/ HARD SADDLEBAGS 10-16

- Saddlebag Lid Bras stop scratches and cover those that are already there
- Tapered design leaves the saddlebag lids artfully exposed while protecting and covering the front portion from marring
- Secured in place with hook-and-loop material to the inside top of the saddlebag lid in four locations for a secure fit
- Remove easily for cleaning and waxing

SUG. RETAIL **\$65.95** PART # **3501-1168**

TOP SHELF® ORGANIZER

FOR VICTORY CROSS COUNTRY 10-17 HARD SADDLEBAG

- Utilizes the stock rear bail head pin and included oversize washer to lock unit in place
- Custom molded tray only fits the right rear saddlebag
- Tray design custom-molded to Saddlebag wall shape
- Die-cut rubber grip mat included; no tools required for installation
- Made in the U.S.A.

SUG. RETAIL **\$44.95** PART # **3501-0766**

KURYAKYN

SADDLEBAG FRONT KICK ACCENTS FOR VICTORY CROSS COUNTRY, CROSS COUNTRY TOUR, MAGNUM 10-16, CROSS ROADS 10-14, HARDBALL 12-13

- Prevent those unsightly scuffs and scratches or cover up the ones that are already there
- Black inlaid rubber accent in a chrome ABS housing
- Hassle free peel-and-stick installation
- For use on models listed equipped with OEM hard bags
- Sold in pairs

SUG. RETAIL ... **\$99.99** PART # **3550-0222**

SADDLEBAG TOP ACCENTS

FOR CROSS COUNTRY/CROSS COUNTRY TOUR/MAGNUM 10-16, HARD BALL 12-13 AND CROSS ROADS 10-14 MODELS WITH HARD SADDLEBAGS

- Attach down top center of saddlebags to flawlessly enhance the bike's contours
- Mount either directly centered on top of the saddlebags or slightly to the rear to coordinate with Kuryakyn saddlebag front kick accents PART # 3550-0222; sold separately
- Simple peel-and-stick installation
- Sold in pairs

NOTE: Not compatible with OEM leather-covered bags.

SUG. RETAIL **\$79.99** PART # **3501-1165**

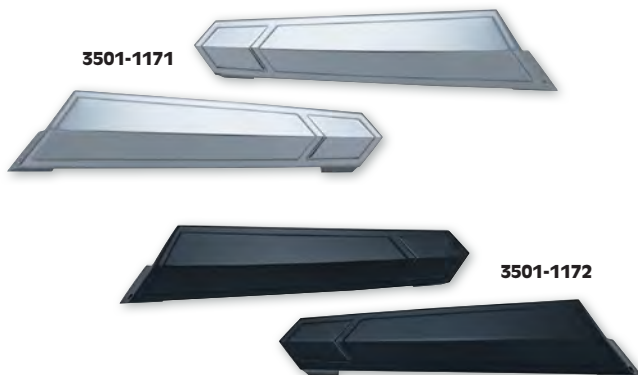

SADDLEBAG SIDE SWOOPS

FOR VICTORY CROSS COUNTRY/CROSS COUNTRY TOUR/MAGNUM 10-16, HARD BALL 12-13 AND CROSS ROADS 10-14 MODELS WITH SADDLEBAGS

- Dress up your Victory saddlebags and provide some scuff protection at the same time
- Simple peel-and-stick installation
- Sold in pairs

NOTE: Not compatible with OEM leather-covered bags.

SUG. RETAIL **\$79.99** PART # **3501-1164**

SADDLEBAG HINGES

FOR CROSS COUNTRY/CROSS COUNTRY TOUR/MAGNUM 10-16, HARD BALL 12-13, CROSS ROADS 10-14 WITH HARD SADDLEBAGS

- Direct replacement hinges are mad from die-cast aluminum
- Minimalist design is sleeker than stock to enhance the contours of the OEM bags
- Easy to install using the factory hardware
- Sold in pairs

SR-i900R RFID MOTORCYCLE SECURITY SYSTEM

- The SR-i900R is a latest-generation two-way FM security system offering hands-free RFID technology
- Simply walk towards or away from your bike, and the remote transceiver will automatically communicate an arm or disarm command using its proximity recognition system
- This unique auto-arm and hands-free disarm operation provides the highest standard of security and convenience
- Standard features include:
 - RF-ID for hands-free operation
 - Programmable auto or manual arming and disarming
 - Long-range FM transceiver (up to a 1/2 mile)
 - Range and signal status display
 - Compact design (3¹¹/₁₆" x 2³/₄" x 7/₈"")
 - Dual-axis accelerometer for detecting impact/inclination
 - Built-in 120 dB multi-tone siren with soft chirp
 - Sensor violation display
 - Audible/vibrating alert
 - Remote motorcycle finder/panic alarm
- Programmable perimeter sensor with warn away that detects motion around the bike, protecting saddlebags, luggage and accessories
- Built-in battery backup system allows the pager to operate even if wires are cut or circumvented
- Ignition disable feature allows the user to remotely cut off the engine in case of hijack
- Includes charging cord for remote receiver
- Factory connector kits allow the alarm system to be integrated into the OEM-style harness without any cutting or splicing (sold separately; see page 18)

NOTE: Includes module, mounting kit and hardwire kit (not shown).

SUG. RETAIL **\$439.95** PART # 4020-0052

SR-i900 RFID/TWO-WAY FM SECURITY SYSTEM

- SR-i900 provides the convenience of hands-free operation combined with a compact two-way FM paging security system designed specifically for the motorcycle industry
- Standard features include two-way FM remote transceiver
- RFID for hands-free operation
- Auto or manual arming and disarming
- Ignition circuit sensor
- Long-range FM transceiver (up to a 1/2 mile)
- Range and signal status display
- Compact design (3¹¹/₁₆" x 2³/₄" x 7/₈"")
- Dual-axis accelerometer for detecting impact/inclination
- Built-in 120 dB multi-tone siren with soft chirp
- Sensor violation display
- Audible/vibrating alert
- Smart Battery Safeguard with sleep mode
- Motorcycle battery voltage display
- Remote motorcycle finder/panic alarm
- Includes charging cord for remote receiver
- Optional programmable multi-stage perimeter sensor detects motion around the motorcycle (sold separately; PART #SN-4)
- Optional ignition disable/anti-hijack allows disabling of the motorcycle's electrical system and prevents "hot wiring" (sold separately; PART #4020-0007)
- Optional Factory Connector Kits: The SR-i900 system is universal and will install on any motorcycle; optional OEM-compatible factory connector kits are model-specific and plug directly into the factory harness making installation fast, clean and easy (sold separately; see page 18)

SUG. RETAIL **\$329.95** PART # 4020-0077

SR-i800S RFID MOTORCYCLE SECURITY SYSTEM

- Easy-to-use system provides the convenience of hands-free operation and the security of shock, tilt and ignition sensors
- RFID hands-free technology eliminates reaching for the remote to protect the motorcycle
- Standard features include single-button, waterproof remote transceiver
- RFID for hands-free operation
- Auto or manual arming and disarming
- Soft chirp arming
- Flashing lights with trigger memory display
- Ignition circuit sensor
- Compact design (3¹¹/₁₆" x 2³/₄" x 7⁷/₈")
- Dual-axis accelerometer for detecting impact/inclination
- Built-in 120 dB multi-tone siren with soft chirp
- Sensor violation display
- Smart Battery Safeguard with sleep mode
- Remote motorcycle finder/panic alarm
- Built-in battery backup system allows the siren to operate even if wires are cut or circumvented
- Optional programmable multi-stage perimeter sensor detects motion around the motorcycle (sold separately; PART #SN-4)
- Optional ignition disable allows disabling of the motorcycle's electrical system and prevents "hot wiring" (sold separately; PART #4020-0007)
- Optional Factory Connector Kits: The SR-i800S is universal and will install on any motorcycle; optional OEM-compatible factory connector kits are model-specific and plug directly into the factory harness, making installation fast, clean and easy (sold separately; see below)

SUG. RETAIL \$149.95 PART # 4020-0076

ALARM ACCESSORIES

- Programmable perimeter sensor with warn-away detects motion around the bike, protecting saddlebags, luggage and accessories; built-in battery backup system allows the pager to operate even if wires are cut or circumvented
- Ignition disable allows the user to remotely cut off the engine in case of a hijack

DROP TOP™ MEMPHIS FATS

- A revolutionary concept: the windshield is out of your line of sight, but the air goes over your head- with no buffeting
- Adjustable and available in three height ranges: 13"-16", 15"-18" and 17"-20"
- Contoured concave Venturi Wing™ boosts the airflow up an additional 3", through the full range of adjustment
- Wings can be installed in three positions, each with 1 1/4" of no-tool adjustment, allowing riders to find the sweet spot for cruising down the highway, or "drop top" around town
- Dynamic styling, available in ghost or black smoke with polished or "night shades" black stainless straps
- Engineered using CFD (Computational Fluid Dynamics) software
- Available in 7" or 9" headlight cutout
- Mounting hardware must be ordered separately; see page 21
- Made in the U.S.A.

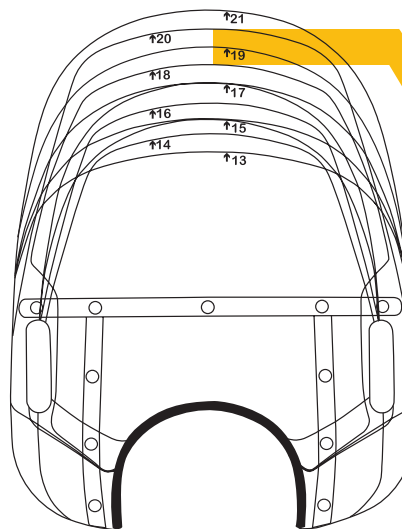

DROP TOP MEMPHIS FATS WINDSHIELD SIZING PROCEDURE

- Using a Memphis Shades sizing guide held about "one finger" above the headlight, slanted back about the same angle of the forks, sight level through the sizing guide to the tip of the rider's nose
- The closest height shown on the sizing guide is the rider's normal windshield height
- For Drop Top sizing, subtract 2" from the rider's normal windshield height and find the Drop Top range into which the shorter height fits (For example, if you measure 19" on the sizing guide, subtract 2" to get 17"; your Drop Top Memphis Fats size is 15"-18")

NORMAL WINDSHIELD HEIGHT

NO-TOOL TRIGGER-LOCK MOUNT KITS FOR SPORTSHIELDS

2321-0022

Trigger-Lock Mounts let you remove or change Memphis Shades Fats/Slim in a moment's time

- The revolutionary No-Tool Trigger-Lock mounting kits feature a detach system that allows you to quickly and easily remove or swap out your Sportshield without the use of any tools
- A pair of latches lock the windshield down until the spring loaded "trigger locks" are intentionally disengaged, allowing the rider to remove the windshield
- Kits are a combination of CNC-machined aluminum plates and anchors, stainless steel hardware, gray polymer bushings and glass-filled nylon latches or "Night Shades" black version which is a gradient black windshield with black E-coated stainless steel straps, fittings and hardware for a black-on-black sinister look
- Kits are custom-fit to each style of bike for no-hassle installation

PLATE-ONLY HARDWARE KITS

- Allow changing from Fats/Slim to Sportshield or from Sportshield to Fats/Slim without purchasing the entire mounting hardware

INDEPENDENT LOWERS HARDWARE

- Mounts Memphis Shades Lowers plastic to most motorcycles
- Each kit contains two fork clamp/mounting assemblies and all necessary hardware to mount Lowers plastic
- Kits can be used with select Memphis Shades windshields and several OEM windshields
- Sold in pairs; must order Lowers plastic separately

BAGGERSHIELD™

FOR VICTORY CROSS COUNTRY 11-16

- DOT-approved adjustable-height windshield
 - Eliminates the need to own multiple windshields
 - Adjusts in seconds without the use of tools
 - Made from 3/16" aircraft-quality Lucite® acrylic
 - .052" thicker than OEM windshield
 - Bottom windshield color, dark smoke; top windshield color, clear
- NOTE: Measurement is taken in the center of the shield from bottom to top.**

AIRMASTER® 10" GRAPHIC WINDSHIELDS

FOR VICTORY CROSS COUNTRY/CROSS COUNTRY TOUR/MAGNUM 10-16

- Custom-formed from premium materials using a proprietary process
- Quality, hard-coated polycarbonate that will not crack or shatter upon impact, unlike acrylic
- Screen-printed with proprietary ink, making the images unbelievably sharp and durable
- Center air scoop has been enlarged to reduce turbulent airflow and match the sharp lines of the fairing
- Available in dark smoke or light smoke with graphics
- Graphics are printed behind a light smoke material and fill the bottom portion of the windshield, leaving the top clear for an unobstructed view

MEMPHIS SHADES BATWING FAIRING

- Features clean aerodynamic shape
- Inner fairing structure is black ABS
- Fairing outer shell is opaque black Lucite with a class A finish that looks great as is, or can easily be painted
- Memphis Shades exclusive No-Tool Trigger-Lock mounting kits feature a detach system that allows you to quickly and easily remove or install your fairing, or swap out with other Memphis Shades windshields, sportshields or fairings
- Trigger-Lock kits are available in a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors or black E-coated plates, bolts and anchors for a clean appearance that's built to last
- Fairing is predrilled and fitted with push-out hole plugs for easy wind deflector installation
- Windshields are available in four height and several translucent color options, as well as clear and solar (a light tint with 72% visible light transmission) for Spoiler windshields; see page 27
- Optional wind deflectors for increased downward airflow, windshield tri-pouch for storage and fairing trim for style are also available; see page 26
- Made in the U.S.A.

NOTE: Batwing Fairing is not compatible with any other fairing windshields, wind deflectors or accessories.
NOTE: Plate-only kits are for riders who already have a Memphis Shades Trigger-Lock windshield installed and do not need the anchoring hardware components.

WHAT TO ORDER

1. Batwing Fairing
2. Trigger-Lock Mount Kit
3. Windshield of your preference; height and color options are shown on next page, see page ??? for Spoiler windshields

Trigger-Lock Mounts let you remove your Batwing Fairings in a moment's time or quickly change to your Memphis Shades Fats/ Slim or Sportshield to instantly change the look of your bike.

BATWING FAIRING SPOILER WINDSHIELDS FOR MEMPHIS SHADES BATWING FAIRINGS

- Designed to be looked over, the spoiler windshield diffuses the air stream, effectively slowing the flow without buffeting
- Fit all Memphis Shades Batwing Fairings
- Made of Lucite® for superior optics and durability
- Made in the U.S.A.

SUG. RETAIL \$99.95

COLOR	5"	6.5"	9"
Smoke	2350-0167	2350-0135	2350-0170

Solar	2350-0169	2350-0166	2350-0172

SIDE WINGS

- Expand comfort pocket, channeling air outward while "cleaning" the flow
- Adjust to suit rider preference
- Can be installed/removed with windshield intact - Santoprene pads grip the windshield but do not mar the surface
- "Ghost" shade - a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Fats Side Wings (PART #2350-0142) attach to any Memphis Fats windshield using CNC machined billet aluminum clamps - black E-coated; can be mounted along the Booster Wing
- Side Wings (PART #2350-0200) fit all Memphis Fats windshields or similar windshields that measure either 3mm or 4.5mm thick (includes inserts for both sizes); feature injection-molded glass-filled nylon clamps in place of the billet aluminum; can be mounted along with Hot Wing
- Made in the U.S.A.

BOOSTER WING AND HOT WING

- Boost airstream upward - Venturi action speeds up the airstream while smoothing the flow - without buffeting
- Allows the use of a shorter shield; now easily look over your shield
- Both are made with "Ghost" shade - a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Booster Wing (PART #2350-0139) attaches to any Memphis Fats windshield using CNC-machined aluminum clamps; black E-coated
- Hot Wing (PART #2350-0199) (lighter and less expensive) uses injection-molded glass-filled nylon clamps in place of the original billet aluminum clamps; fits Memphis Fats windshields or similar windshields that measure 3mm or 4.5mm thick (includes inserts for both sizes)
- Made in the U.S.A.

TIRE HUGGER SERIES FRONT FENDER FIT KITS FOR VICTORY MODELS

- Steel fenders are thick enough to add rigidity to the front end by acting like a fork brace, but can still be cut or shaped enough for an even more Kustom appearance
- All fenders come predrilled and E-coated and are stamped, not spun, for the ultimate smooth long-lasting fender
- Fenders for 16", 17" and 18" wheels measure 6.25" outside width and will accommodate up to a 140-series tire
- Fenders for 21" wheel with inverted style forks measure 5.875" outside width and will fit the current 120/21 series tires on 3.5" wide rims
- Fenders for 21" wheel with conventional forks measure 4.5" outside width and will fit models listed with the stock narrow rim and a tire up to 100/100-21
- 6061 aluminum mounting blocks included for all applications
- Fenders come with choice of chrome or raw mounting blocks (see chart)
- Made in the U.S.A.

LOW-PROFILE TOURING SEATS WITH BUILT-IN BACKRESTS

- Solar-reflective leather in the seating area and automotive-grade vinyl on the sides; patented process reduces surface temperature by as much as 25°F for a cooler seat, higher durability and longer life over conventional leather or vinyl
- Lower position creates better rider position with improved styling
- Flexible urethane foam for maximum comfort
- Includes backrest pad
- Seats have built-in removable backrest for driver only
- Feature the EZ Glide I system for a smooth and virtually corrosion-free operation
- ³/₁₆" ABS thermoformed seat base with carpeted bottom to protect paint
- Include mounting hardware
- Fit with OEM sissy bar
- Made in the U.S.A.

NOTE: Convertible pad is not compatible with these applications.

BAHN™ MIRRORS

BAHN

- Mirrors are high-quality forged aluminum construction
- Improved rear-view vision due to beveled glass and large, stylish mirror heads that meet DOT size standards
- Mirror heads measure 5" W x 3 1/8" H
- Choose from a chrome finish or Tuxedo anodized black and machined finish
- Sold in pairs

NOTE: Not recommended for Buckhorn handlebars.

NOTE: Require Metric Mirror Adapter PART #s 0641-0118 or 0641-0120 for installation; sold separately.

KURYAKYN

TRIDENT BAR-END MIRROR FOR VICTORY CROSS COUNTRY/CROSS ROADS/MAGNUM 10-16, HAMMER 10-16, HARD BALL 10-16, KINGPIN 04-16 AND VEGAS 04-16

- Transform the look of your handlebars and move the mirrors to a wider, more useful position
- For use with 7/8" or 1" diameter hollow handlebars
- Wedge-in style
- Handlebar must have at least 2 3/4" depth of open bar end
- Sold each

NOTE: Proper installation requires cutting or drilling a 5/8" hole in the end of the OEM grips. Proper installation requires 7/8" or 1" diameter handlebars with open ends. Not compatible with Kuryakyn chrome-style Throttle Bosses that screw to the end of the Kuryakyn grips or other grip end accessories or bar end weights. Not suggested for Buckhorn-style handlebars.

NOTE: Suggested installation of mirror is on the left grip clutch side only.

NOTE: Must have Kuryakyn grips installed.

SUG. RETAIL \$79.99

PART # 0640-0663

KURYAKYN

RAISED MIRROR ADAPTERS FOR ALL VICTORY MODELS 08-16 (EXCEPT VISION)

- Provide a raised mirror mount location essential for mounting Kuryakyn mirrors
- Raise mirror mounting position approximately 1 1/2"
- Allow clearance from brake master cylinder and greatly improve visibility
- Quality stainless steel with a polished finish for a stunning appearance
- Sold in pairs

SUG. RETAIL \$17.99

PART # 0641-0178

STEERING STEM BEARINGS

- Designed as a drop-in replacement to upgrade OEM ball-type bearings to taper bearings (where ball-type bearings are used by the OEM)
- Designed as a replacement taper bearing seat (where taper bearings are original equipment)
- Kits come complete with both upper and lower taper bearing cups and cones and seals (both top and bottom seals are included in most kits)
- Tapered roller bearings decrease maintenance along with less wear and longer life

STAINLESS STEEL CABLES

- Barnett cables are smooth-working, long-lasting and made with the finest components available, making them virtually indestructible
- Stainless steel cables with clear coating offer that custom look without the fear of damaging areas that the cables come in contact with
- Available with standard nylon-lined, PVC-coated casings in standard diameters
- Made in the U.S.A.

**iOmounts™
DEVICE MOUNTS
FOR VICTORY CROSS COUNTRY,
CROSS COUNTRY TOUR
W/ STOCK CONTROLS 10-16**

- Motorcycle model-specific mounts incorporate the iOmounts™ system; install the mount to bike with included hardware
- Nomad Universal mount fits any handlebars that are .5" to 2" in diameter; includes Nomad, two iOadapts and two iOskins
- Attach razor-thin iOadapt stainless steel adapter to your device and connect to the powerful iOcore magnetic carrier
- Device is held in place by the strong iOcore magnet, and you can adjust the angle of your device
- iOskin provides perfect surface to mount iOadapt, and protects device from iOadapt adhesive

NOTE: Not for use with Samsung Galaxy S4 phones.

EVO3 LIGHTWEIGHT LITHIUM-ION BATTERIES

- EVO3 is the latest evolution of lightweight Lithium-Ion batteries built to fit the OEM battery compartment, but with multiple power options
- The lightest, most powerful starter battery available, no matter what you ride
- State-of-the-art Lithium Ferrous Phosphate (LiFePO4) technology
- Extremely durable with an exceptional static self-charge rate of only 10% per year
- Up to 10 lb. lighter than the stock battery
- "Dry" technology that can be mounted in any direction
- Extensively tested by professional race teams
- Environmentally friendly, non-toxic and recyclable
- Designed, developed and assembled in the U.S.A.

NOTE: Operating environment: 0°F (-18°C) to 140°F (60°C)

NOTE: For applications used in cold environments or with high-performance modifications, we recommend using the EVO3 Upgrade. The EVO3 Upgrade is dimensionally the same, but has higher burst cranking amps.

POWER MAX MAINTENANCE-FREE BATTERIES

- Completely sealed black case can be mounted in almost any position
- Advanced technology allows very high power discharge
- Accept a high rate of recharge without damage to the battery
- Can be recharged over 90% in less than one hour on a regulated charger
- Battery **MUST BE CHARGED** in the same manner as any lead acid battery
- When not in service, battery should be charged once a month

YUASA BATTERY

BATTERIES

- Yuasa is the world's largest manufacturer of motorcycle batteries and has over 50 years of expertise behind its product

HIGH-PERFORMANCE AGM MAINTENANCE-FREE BATTERY

- This new generation of maintenance-free batteries delivers higher cranking amps for vehicles that require extra starting power
- Additional cranking amps make these one of the most powerful batteries on the market
- Acid pack included, except where noted as Factory-activated

NOTE: Factory-activated batteries should be charged once a month when not in service.

AGM (MAINTENANCE-FREE) BATTERY

- Special absorbed-glass mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid; Acid Pak included
- Truly the world's finest "install it and forget it" motorcycle battery

WHEEL BEARING AND SEAL KITS

- High-speed bearings are manufactured to ABEC 3 precision levels
- Triple-lip rubber seals keep the grease in and the water and dirt out
- Chevron SRI 2 grease contains rust and oxidation inhibitors (-20°-350°F)
- Double-lip type TC seals with stainless steel garter springs

BRAKE PADS

- Sintered metal brake pads are the OEM-type replacement pads for most bikes from the late 1970s to the present
- Sintered metal brake pads are proudly made in the U.S.A.; second-to-none in their stopping abilities and wear characteristics, while still providing excellent reduction in noise and dust
- Organic pads are OEM type replacement brake pads for 1970s and earlier models
- Organic pads with aramid high-performance fibers are the perfect choice for polished or chromed rotors and billet steel rotors
- Semi-metallic brake pads offer a pad in between both the sintered and organic brake pad compounds
- All compounds of Drag Specialties brake pads are asbestos-, nickel- and lead-free

NOTE: Pads are 8mm thick.

NOTE: If you are using aftermarket billet steel rotors, it is recommended you use our Organic pads with Aramid high-performance fiber brake pads to avoid damage to them. Sintered pads are not recommended for billet steel rotors as the pad material is too aggressive for those rotors.

Standard Sintered metal brake pads

Sport HH+ Supersport pads

DP BRAKES

THE ORIGINAL SINTERED BRAKES

- DP Brakes brake pads are designed with sintered metal compounds to give your bike high-tech performance in all conditions
- Pads have a quick break-in period so you get maximum performance fast
- DP Brakes design and materials ensure consistent hard stops and fade-free performance
- Sintered metal compounds outlast more conventional organic or Kevlar® pads

STANDARD SINTERED METAL BRAKE PADS

- GG friction rated and made with DP Brakes' proven sintered metal material
- Gray-colored aluminum oxide-based ceramic material on rear of backing plate keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Pad compound gives equal performance in wet or dry conditions
- Ideal replacement for street and touring machines where durability is the prime requirement
- No brake fade

SPORT HH+ SUPERSPORT PADS

- Powerful, industry-high HH+ friction rating with no mileage penalty
- High-tech ceramic heat shield eliminates brake fade
- Dust-free compound design
- Quick break-in so you get maximum braking ability fast
- For front wheel use only

NOTE: For brake pad applications, see chart on page 66.

Organic

Double-H Sintered Metal

"V" Semi-Sintered

BRAKE PADS AND SHOES ORGANIC BRAKE PADS

- The world's #1 selling organic disc brake pads
- EBC Organic brake pads contain Aramid fibers; these are man-made high-performance fibers used widely for their light weight, high strength, abrasion resistance and thermal stability
- Aramid fibers have high strength-to-weight, thermal stability and abrasion resistance to provide advantages over cheaper steel fiber-based products
- Provide excellent stopping power without noise and rotor galling, even on polished rotors
- Fingertip control and strong, predictable brake response

DOUBLE-H SINTERED METAL PADS

- Feature the HH friction rating – the highest in the industry
- Provide maximum brake effect and last twice as long as organic pads
- Sintered pads are made in the U.S.A.

SEMI-SINTERED "V" PADS

- All-new semi-sintered construction containing 30% copper by weight within an organic matrix
- This design has the long life of a sintered pad with the great feel and are more rotor friendly than the more aggressive sintered pads
- Can be used to replace organic or sintered metal compound pads

NOTE: For brake pad applications see chart on page 66.

Ceramic

Sintered

SBS BRAKE PADS

- SBS brake pads feature asbestos-free brakes using patented Unified Composite Technology (UCT)
- UCT technology completely blends all brake pad materials into a balanced, unified pad
- This balance ensures no hot spots, glazing, premature fading or excessive rotor wear
- The result is powerful, fade-free braking performance, even in extreme conditions

STREET CERAMIC PADS

- Designed for flawless performance on all street bikes NOT factory-equipped with sintered metal pads
- Provide strong stopping power no matter what the conditions
- Street Ceramic pads can replace sintered pads; however, STREETExcel sintered pads are recommended for those applications

STREETEXCEL SINTERED METAL PADS

- The best in sintered replacement pads for high-performance front (HS) and rear (LS) street applications
- Use advanced sintering process technology; perfect for sport riding
- The highest coefficient of friction in the lineup to provide maximum stopping power
- Formulation also offers high fade-resistance and quick cool-down under severe braking
- When you need to replace your worn sintered metal pads, choose STREETExcel; the sinter compounds with the power to stop you

NOTE: For brake pad applications, see chart on page 66.

HIGH-PERFORMANCE BRAKE PADS

- All Braking® brake pads are asbestos- and nickel-free
- Other brake companies stress friction over other performance factors – Braking uses an organic base material for outstanding friction along with a soft, non-aggressive metal that allows the pad to glide on the disc, providing better control
- All Braking brake pads are compatible with cast iron, stainless steel and Carbrion® materials and, when used with Braking rotors, provide the greatest control and braking power available

SM1 COMPOUND

- Semi-metallic compound – great OE replacement-type pad
- Best performance at lower temperatures
- Offers an aggressive response and is easily identified by the black backing plate

FRONT CM55 COMPOUND

- Universal, sintered metal compound that is a great OEM upgrade
- Offers a powerful initial bite and also a longer pad life
- Good pad choice for all types of street sport riding conditions

CM66 COMPOUND

- Unique Braking semi-metallic compound formulated for the most demanding street riding and/or racing conditions
- Provides a very aggressive initial bite combined with a positive lever feeling
- Best performance obtained in higher temperatures

NOTE: For brake pad applications, see chart on pages 66.

GOLD-PLUS BRAKE PADS

- LRB's latest advancement in high-performance friction materials
- Racing formula offers extreme stopping power in both wet and dry conditions
- Dust and rotor wear are eliminated
- Proprietary blend of organics and trace iron requires no break-in
- Sold in pairs; order two pairs for dual-disc applications
- Made in the U.S.A.

Z-PLUS BRAKE PADS

- A matrix of carbon/Kevlar® and non-ferrous metal similar to LRB's Gold-Plus Pads in stopping performance, but softened slightly to provide longer service life in the lower temperature ranges found in common street use
- Dust-free, quiet and the best protection for polished rotors
- Ultra-long service life

XTREME BRAKE PADS

- Utilize the latest technology in high-performance aramids by DuPont®
- The first organic pads to achieve an H/H friction level
- X-treme Performance Brake Pads deliver predictable, repeatable performance in the most-demanding riding environments, mountains, canyons, even track days
- Ideal for high-performance motorcycles and/or heavy-duty touring
- High-torque stopping power
- Rotor friendly, won't scratch your disc
- Zero dust, zero noise
- 15,000 service miles
- Fit composite or steel rotors
- Work well hot or cold, wet or dry
- Made in the U.S.A.

465 SERIES SHOCKS

- High-pressure gas monotube design for the ultimate performance
- Five-position rebound adjustment to tailor the suspension for changing conditions and riding styles
- Threaded shock body with a wide range of adjustment to fine-tune preload and sag
- Hard anodized aluminum body and components for excellent durability and corrosion resistance
- 46mm bore and defluctive disc piston provides precise damping
- 16mm hard chrome shaft rides on custom viton seals for low friction and leak-free reliability
- Each shock is custom tuned (damping and spring rate) for each fitment
- Made in the U.S.A.

1310-0611

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

BRAIDED FRONT BRAKE LINES

- The Industry's highest-quality braid available in two colors to complement your bike; Sterling Chromite II® and Black Pearl braided with black wire
- Braid color and weave match on all Magnum control cables and brake lines
- E-Z Align rotating caliper banjo feature for perfect no-kink fitments
- Dual-Disc Brake Kits consist of direct-fit lower assemblies used in conjunction with alternative-length upper lines
- Adapters and upper brake lines have -3AN connections for easy installations
- All fittings are polished and chrome or black chrome plated
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Kevlar® braided inner PTFE tubing greatly reduces line expansion, providing the ultimate in high performance
- Exceeds all DOT FMVSS-106 Specifications
- Made in the U.S.A.

NOTE: Dual-disc upper and lower brake line kits are sold separately; lower brake line is optional.
NOTE: An adapter is required to connect the upper brake line to the lower. See chart.

OIL FILTER

- Parts Unlimited oil filters use the world's finest materials, literally: German paper, English glue, and Japanese zinc steel
- All necessary gaskets included
- See application chart on page 76

SUG. RETAIL\$11.95

PART # 0712-0175

OIL FILTER

- High-quality spin-on filter
- A dependable replacement for OEM #2540086
- Available in black
- See application chart on page 76

SUG. RETAIL\$8.95

PART # 0712-0481

FLO STAINLESS STEEL, REUSABLE "SPIN-ON" OIL FILTER

- Made from laser-cut, medical-grade, 304 stainless steel micronic filter cloth, this filter provides 200% more filter area in many cases
- Stainless filter catches items down to 35 microns, which is about three times better than most good paper or brass filters
- Unlike glued paper filters, the FLO Oil Filter pleat seam is welded and able to withstand up to 600° F
- Filter maintains consistent flow under all conditions including extreme heat, the presence of water, and cold start-ups where paper filters can flow so poorly that they often cause the bypass valve to open and allow unfiltered oil to enter your engine
- Should be the last filter an owner ever needs; this high tech filter technology is widely used in all types of auto racing including NASCAR, Indy type cars, Formula 1 and in the aerospace industry where filtration is of the utmost importance
- FLO reference # PCS1
- See application chart on page 76

SUG. RETAIL\$129.95

PART # 0712-0149

PERFORMANCE OIL FILTERS

- Designed to be compatible with modern synthetic and synthetic blended oils
- Synthetic Media allows for the higher-flow rates associated with synthetic and synthetic blended oils
- Large uniform pleated Synthetic Filter Media provides high-capacity and outstanding filtration
- Protected by a heavy-duty canister and base plate, with a double-rolled seal
- 17mm hex nut allows easy-on, easy wrench-off (where applicable)
- Pre-drilled for safety-wire security
- Pressure relief valve and anti-drain back valve (where applicable)
- Pre-lubed base gasket for easy, no-mess installation
- K&N reference #: KN-198
- See application chart on page 76

SUG. RETAIL\$14.95

POWER COMMANDER V

- Fuel control for each individual cylinder in a smaller enclosure
- "Warm-up" fuel adjustment (unit reads engine temp and allows fuel/timing adjustments based on the reading)
- All applications include ignition adjustment feature; allows full ignition timing control of each cylinder
- Reduced size from the PCIII USB
- Easy to install
- USB powered from computer; 9 volt adapter is no longer needed
- Two-position map-switching function built in
- Can add any Single Pole Single Throw (SPST) switch and toggle between two different fuel maps
- Gear/speed input allows for map adjustment based on gear
- Analog input allows user to install any 0-5 volt sensor
- Build an adjustment table based on analog input such as boost or temperature
- Power Commander V is capable of allowing each cylinder to be mapped individually and for each gear with the gear position input connected
- More tuning ranges than PCIII USB
- Enhanced "accel pump" utility
- Made in the U.S.A.

POWER COMMANDER III USB

- USB (Universal Serial Bus) port provides an instant and automatic connection to the Power Commander Control Center software; simply power up the unit and connect the PCIII USB to the computer with the supplied cable
- Provides precise information for fine-tuning a fuel-injected motorcycle when changing an air filter, installing a new exhaust system or doing additional engine performance modifications
- Each unit includes a built-in microprocessor and a specific map designed to improve engine performance over stock; Dynojet continuously maps new calibrations for each bike for downloading at their web site (www.powercommander.com)
- If you do not have a computer, you can change the settings with three touch buttons on the faceplate
- OEM-style wiring connectors with improved harness protection are supplied; no wiring modifications required
- Includes easy-to-follow instructions
- Direct injector control technology manages the fuel curve on models that do not have the sensors to monitor fuel adjustment
- Features an expansion port for future add-on modules from Dynojet
- Software is compatible with Windows 2000/XP/Vista and Windows 7
- USB special cable and 9V battery power adapter are included
- Made in the U.S.A.

POD-300 DIGITAL DISPLAY

- Real time fuel adjustment
- Display channels real-time: RPM, TP, map position (when using map switch), duty cycle, fuel exchange, ignition change and wideband air/fuel ratio (w/ WB2 or auto-tune connected)
- Weather resistant for use in all conditions
- Log channels saved to internal memory and can be viewed/analyzed with Dynojet's powercore software
- High contrast display, viewable in sunlight
- Includes CAN cable for attachment to Power Commander V, Auto Tune and Wide Band Power Commander

NOTE: Not for use with Power Commander III USB.

CENTURION SUPER PRO PLUS PROFESSIONAL DIAGNOSTIC TOOL SYSTEM

- The industry's only complete professional diagnostic tool system designed for independent professional repair facilities
- Communicates with all 08-17 Victory, 03-17 Indian, 97-15 Harley-Davidson® and Buell models using the proprietary VCM-TR3 Communication Module with included cables
- Re-flash blank ECU, program VIN and Key Fobs on Harley models
- Easily perform speedometer calibration on all Harley models through 2015
- ABS bleeding and ABS solenoid-pump testing on Harley models
- Read and clear Diagnostic Trouble Codes (DTC)
- Reset air/fuel values and adjust idle rpm on Harley models
- Perform active tests on tachometer, speedometer, fuel pump, idle rpm, system relays, cooling fans, IAC, ACR compression, injectors, indicator lights, coils, coolant pump, left or right turn signals and more on Harley models
- LED indicator tests for 6th gear, ABS service, battery, check engine, cruise control, high and low beam, neutral, oil, security and coolant temp on Harley models
- View real-time data in strip chart or digital dashboard formats
- Requires use of a Windows laptop, PC or tablet; connect using either included cable or Bluetooth® wireless connection
- Fast data acquisition and many hours of data storage provides accuracy and saves time
- Can easily update software online through Technoresearch to stay current on all features, years and model types
- Included VCM-TR3 Communication Module is fully compatible with Direct Link & Tune Builder keys (sold separately)
- Includes Mobile Dyno with Android app
- Durable metal housing and easy adapter system allowing for fast switches between motorcycles
- Made in the U.S.A.

TECHNO RESEARCH

TUNE BUILDER

- Tune Builder is an easy-to-use, professional tuning aid that saves up to 50% of the time needed to create mapping
- Quickly combines current map information with using its powerful data collection and sophisticated algorithms to automatically create tables that allows users to copy/paste completed maps into flash tuning software
- After data is collected from a motorcycle ECU, Tune Builder's Auto Mapping feature automatically generates fuel tables to create the most efficient map possible
- Can be used with all flash tuning software regardless of brand, including OE and aftermarket products
- Effortlessly tune Volumetric Efficiency (VE) tables, detect and remove spark knock and evaluate engine usage areas
- Log up to 16 channels simultaneously and at high frequency
- Record and seamlessly integrate any O₂ sensor device into data collection
- Can utilize the motorcycle's stock narrow band O₂ sensors (if equipped)
- View 3D plots in a grid or in color and view statistics on collected data
- View and adjust tables simply
- Easy to apply manual corrections of VE and spark tables
- Can apply changes to front and rear tables simultaneously
- Keys are available with either 5 or 10 licenses; one license used per motorcycle
- Made in the U.S.A.

NOTE: PART #1020-2409 includes VCM-TR3 communication hardware and cables. License keys need to be purchased separately.

NOTE: If you have a Centurion Super Pro or Centurion Super Pro Plus, PART #1020-2409 is NOT needed.

FUEL MANAGEMENT CONTROLLERS

- Simple to use and understand system provides easy air/fuel ratio adjustment
- No computer or dyno required
- Tuning capabilities superior to Alpha N type controllers
- Easily adjusts for modifications – intake, exhaust, cams, etc.
- Easy push-button operation
- Load-based operation
- Three basic zones of operation, similar to a carburetor – one zone sets the “pilot jet” for idle and cruise, another sets the “needle jet” for acceleration and a third zone sets the “main jet” for heavy loading and wide-open throttle
- Plug-and-play installation
- Uses OEM base codes; does not scramble base codes
- Made in the U.S.A.

KHROME WERKS

4" HP-PLUS® PERFORMANCE SLANT DOWN MUFFLERS

- Cat-back mufflers provide a deep, mellow exhaust tone
- Horsepower and torque gains over stock mufflers are achieved in part by an internal expansion chamber in the baffle core
- The steel baffle core is machine wrapped first with stainless steel wool, then with a high-temperature fiberglass blanket for acoustic longevity assurance
- Designed to enhance top end power while retaining good low end torque
- The one-piece, 16-gauge steel tubing muffler shell is finished in highly polished, duplex nickel chrome
- Install using factory mounting hardware, clamps and heat shields
- Sold in pairs
- Made in the U.S.A.

CRUSHER

CRUSHER MAVERICK SLIP-ONS FOR INDIAN SCOUT 15-16

- Shed pounds and gain a 5-percent increase in horsepower without intake or header upgrades
- Slim 2.5" muffler diameter flaunts the Scout's smooth lines and matches the stock headers to preserve the lean profile of traditional staggered dual exhausts
- Aggressively-styled billet aluminum tips with high-temp black ceramic coating and brushed stainless steel banding with the Crusher emblem
- Premium, chrome-plated steel
- High-flow baffles produce a throaty exhaust note when cracking the throttle
- 5% horsepower gain without intake, header or fuel mapping modifications
- Simple, bolt-on installation with included bracket and hardware
- Approximately 14 lb. lighter than stock mufflers
- Made in the U.S.A.

SUG. RETAIL **\$479.99** PART # **1811-3024**

COBRA

4" SLIP-ON MUFFLERS FOR INDIAN CHIEF/CHIEFTAIN/ROADMASTER 14-16

1402-0362

1402-0363

FRONT FENDERS FOR INDIAN SCOUT 15

- All fenders come predrilled and E-coated and are stamped, not spun, for the ultimate smooth long-lasting fender
- Steel fenders are thick enough to add rigidity to the front end by acting like a fork brace but can still be cut or shaped enough for an even more Kustom appearance
- 16", 17" and 18" fenders for Indian Scout models
- Benchmark is a more slammed, lower profile look
- Klassic is a timeless style, representing the design lines of the Scouts of the 20's and 30's
- Outrider is a tire hugging style
- All are direct bolt-on replacement front fenders that use stock mounting hardware
- Made in the U.S.A.

SUG. RETAIL\$279.95

OUTRIDER REAR FENDER FOR INDIAN SCOUT 15-16

- Direct bolt-on replacement fender offers an instant bobber style, using stock mounting locations and hardware
- Complete with bolt-in taillight/license plate mount (included)
- Stamped from 14 gauge steel using precision deep-draw stamping technology that ensures a consistently smooth and flawless finish that minimizes bodywork
- E-coated to prevent rust and corrosion from manufacture to paint booth, and beyond as it continues to resist rust after paint
- Precision laser cut technology ensures accurate fitment
- Works with stock 150/80-16 rear and up to a 180 rear tire
- Made in the U.S.A.

SUG. RETAIL\$479.95

ELECTRIC EASY SHIFT SPEED SHIFTER KITS

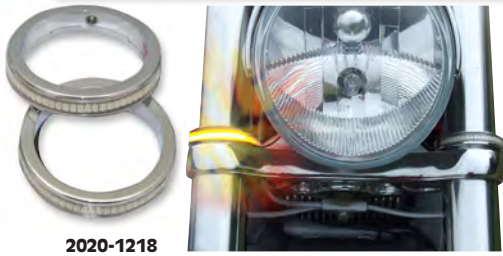

- Easy shifting for rider comfort and convenience or for speed for the performance-oriented rider
- For performance, this is the best bang-for-your-buck product
- Gain a minimum of one bike length per shift
- Shift up at partial or full throttle and back down with the push of a button
- Eliminate the need to shift with your foot or clutch
- OEM shifting ability is retained after installation
- Clutch use is still required for starting and stopping when using these kits
- Use state-of-the-art control module to send a signal from the button control to the shift solenoid
- Kits include a stylish dual-button shift control for upshifts/downshifts, a chrome-plated electronic shift cylinder, ignition kill module, control modules and all necessary brackets
- Made in the U.S.A.

2 3/8" LED DRIVING LIGHT KIT FOR INDIAN SCOUT 15-16

- MR16 high-output and high-intensity Litespan LED 2 3/8" driving light kit is available in a universal cruiser fitment
- Custom die-cast aluminum lights and fork mounts make an ideal fit on many cruisers
- The Litespan LED reflector bulbs produce 400 lumens each from 7 watt 6-LED output in bright white 4000K color
- Their concentrated 20° beam angle puts more light down the road in front of riders for a true driving light function
- The die-cast clamps fit cruisers with 38mm to 41mm forks and come with a wire harness, relay and switch

REAR RED LED TURN SIGNALS FOR INDIAN MODELS 14-16 (EXCEPT SCOUT)

- Plug-n-play
- For use with Badlands Illuminator module PART #2050-0260; sold separately at right
- Sold in pairs

SUG. RETAIL \$119.95 PART # **2020-1279**

BADLANDS ILLUMINATOR MODULE FOR ALL INDIAN MODELS 14-16 (EXCEPT SCOUT)

- Designed to add running light, brake light and turn signal functions to each rear turn signal
- Features a built-in load equalizer that is perfect for switching out factory turn signals to halogen or LED versions
- Plug-n-play design for easy installation
- Made in the U.S.A.

SUG. RETAIL \$118.95 PART # **2050-0260**

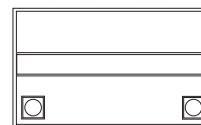

EVO3 LIGHTWEIGHT LITHIUM-ION BATTERIES

- EVO3 is the latest evolution of lightweight Lithium-Ion batteries built to fit the OEM battery compartment, but with multiple power options
- The lightest, most powerful starter battery available, no matter what you ride
- State-of-the-art Lithium Ferrous Phosphate (LiFePO4) technology
- Extremely durable with an exceptional static self-charge rate of only 10% per year
- Up to 10 lb. lighter than the stock battery
- "Dry" technology that can be mounted in any direction
- Extensively tested by professional race teams
- Environmentally friendly, non-toxic and recyclable
- Designed, developed and assembled in the U.S.A.

NOTE: Operating environment: 0°F (-18°C) to 140°F (60°C)

NOTE: For applications used in cold environments or with high-performance modifications, we recommend using the EVO3 Upgrade. The EVO3 Upgrade is dimensionally the same, but has higher burst cranking amps.

YUASA BATTERY BATTERIES

• Yuasa is the world's largest manufacturer of motorcycle batteries and has over 50 years of expertise behind its product

HIGH-PERFORMANCE AGM MAINTENANCE-FREE BATTERY

- This new generation of maintenance-free batteries delivers higher cranking amps for vehicles that require extra starting power
- Additional cranking amps make these one of the most powerful batteries on the market
- Acid pack included, except where noted as Factory-activated

NOTE: Factory-activated batteries should be charged once a month when not in service.

AGM (MAINTENANCE-FREE) BATTERY

- Special absorbed-glass mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid; Acid Pak included
- Truly the world's finest "install it and forget it" motorcycle battery

BRAKE PADS

- Sintered metal brake pads are the OEM-type replacement pads for most bikes from the late 1970s to the present
- Sintered metal brake pads are proudly made in the U.S.A.; second-to-none in their stopping abilities and wear characteristics, while still providing excellent reduction in noise and dust
- Organic pads are OEM type replacement brake pads for 1970s and earlier models
- Organic pads with aramid high-performance fibers are the perfect choice for polished or chromed rotors and billet steel rotors
- Both compounds of Drag Specialties brake pads are asbestos-, nickel- and lead-free

NOTE: All brake pad applications PART #s shown are sintered metal compound pads, unless noted in chart.

NOTE: Pads are 8mm thick.

NOTE: If you are using aftermarket billet steel rotors, it is recommended you use our Organic pads with aramid high-performance fiber brake pads to avoid damage to them. Sintered pads are not recommended for billet steel rotors as the pad material is too aggressive for those rotors.

DP BRAKES THE ORIGINAL SINTERED BRAKES

- DP Brakes brake pads are designed with sintered metal compounds to give your bike high-tech performance in all conditions
- Pads have a quick break-in period so you get maximum performance fast
- DP Brakes design and materials ensure consistent hard stops and fade-free performance
- Sintered metal compounds outlast more conventional organic or Kevlar® pads

STANDARD SINTERED METAL BRAKE PADS

- GG friction rated and made with DP Brakes' proven sintered metal material
- Gray-colored aluminum oxide-based ceramic material on rear of backing plate keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Pad compound gives equal performance in wet or dry conditions
- Ideal replacement for street and touring machines where durability is the prime requirement
- No brake fade

SPORT HH+ SUPERSPORT PADS

- Powerful, industry-high HH+ friction rating with no mileage penalty
- High-tech ceramic heat shield eliminates brake fade
- Dust-free compound design
- Quick break-in so you get maximum braking ability fast
- For front wheel use only

NOTE: For brake pad applications, see chart on page 115.

BRAKE PADS

- SBS brake pads feature asbestos-free brakes using patented Unified Composite Technology (UCT)
- UCT technology completely blends all brake pad materials into a balanced, unified pad
- This balance ensures no hot spots, glazing, premature fading or excessive rotor wear
- The result is powerful, fade-free braking performance, even in extreme conditions

1722-0672

1722-0674

STREET EXCEL SINTERED METAL PADS

- The best in sintered replacement pads for high-performance front (HS) and rear (LS) street applications
- Use advanced sintering process technology; perfect for sport riding
- The highest coefficient of friction in the lineup to provide maximum stopping power
- Formulation also offers high fade-resistance and quick cool-down under severe braking
- When you need to replace your worn sintered metal pads, choose STREETExcel; the sinter compounds with the power to stop you

NOTE: For brake pad applications, see chart on page 115.

EBC BRAKES BRAKE PADS

ORGANIC BRAKE PADS

- The world's #1 selling organic disc brake pads
- EBC brake pads contain aramid fibers; these are man-made high-performance fibers used widely for their light weight, high strength, abrasion resistance and thermal stability
- Aramid fibers have high strength-to-weight, thermal stability and abrasion resistance to provide advantages over cheaper steel fiber-based products
- Provide excellent stopping power without noise and rotor galling, even on polished rotors
- Fingertip control and strong, predictable brake response

Organic pads

DOUBLE-H SINTERED METAL PADS

- Feature the HH friction rating – the highest in the industry
- Provide maximum brake effect and last twice as long as organic pads
- Sintered pads are manufactured in the U.S.A.

Double-H sintered pads

Semi-sintered "V" pads

SEMI-SINTERED "V" PADS

- All-new semi-sintered construction containing 30% copper by weight within an organic matrix
- This design combines the long life of a sintered pad with the great feel and lack of rotor damage common with sintered pads
- Can be used to replace organic or sintered metal compound pads

NOTE: For brake pad applications see chart on page 115.

EZ-ALIGN BRAIDED SINGLE DISC NON-ABS FRONT BRAKE LINES

- E-Z Align rotating caliper banjo feature for perfect no-kink fitments
- All fittings are polished and chrome or black chrome plated
- The industry's highest-quality braid available in two color choices to complement your bike; Sterling Chromite II® and Black Pearl braided with black wire
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with Kevlar® greatly reduces line expansion and provides the ultimate in high performance
- Exceeds all DOT FMVSS-106 Specifications
- Made in the U.S.A.

970 SERIES PIGGYBACK SHOCKS FOR INDIAN SCOUT 15-16

- Progressive Suspension does it once again!
- Designed for performance-oriented twin shock bikes
- Feature piggyback reservoirs, high-pressure gas charge and deflective disc-valving, all packaged in a mono-tube style body
- Include progressive rate springs
- The threaded preload adjustment and external compression adjustment knob allow for fine-tuning to provide optimum performance for rider weight or riding style
- 12" L

SUG. RETAIL \$1,199.00

PART #

1310-1320

FRONT FORK SPRINGS FOR INDIAN SCOUT 15-16 MODELS

- Progressive springs offer a soft initial spring rate for a plush ride
- Progressively wound design provides increased resistance to bottoming as spring compresses
- Improve handling while retaining OEM geometry
- Sold in pairs
- Made in the U.S.A.

SUG. RETAIL \$97.00

PART #

0405-0528

FORK LOWERING KITS FOR INDIAN SCOUT 15-16

- Give Cruiser bike front ends that custom lowered look by lowering the forks
- Your choice of 1" or 2" lowering height is available at time of installation
- To maintain proper balanced geometry, it is recommended lowering the rear of the bike the same amount as the front (Progressive Suspension Series shocks available for lowering the rear); see above
- Installing a lowering kit will decrease initial ground clearance; motorcycle will be lower to the ground, and care should be taken to avoid bottoming, especially over bumps or in turns

SUG. RETAIL \$124.95

PART #

0416-0095

ADJUSTABLE RIDE HEIGHT SHOCK ABSORBER FOR INDIAN CHIEF, CHIEF CLASSIC, CHIEF VINTAGE, CHIEF DARK HORSE AND CHIEFTAIN 14-16

- Shock absorber comes pre-set at 310mm length (approximately 1.5" lower than stock)
- Shock length can be adjusted using hand tools to any range from factory height to 1.5" lower than stock
- Spring rate is adjusted for a 200 lb. rider
- Adjustable spring pre-load

SUG. RETAIL \$329.95

PART #

1310-1261

V-LINE FORK TUBE COVERS FOR INDIAN CHIEF 15-16

- 3-D CNC-machined T6 aluminum
- Replaces the thin factory covers to give your Indian Chief a clean look
- Available in chrome or Reverse Cut gloss black powder-coat finish
- Made in the U.S.A.

HIFLOFILTRO® OIL FILTER

- The original Hiflofiltro factory was founded in 1955 and has been manufacturing filters for the OEM motor industry since 1963
- With the experience of more than five decades, constant research and development and featuring a completely modern production facility Hiflofiltro offers some of the best quality filters in the world
- TÜV approved and production monitored to ensure OEM or better quality
- Constructed using the best materials available
- One of the broadest ranges of aftermarket coverage
- See application chart below

FLO STAINLESS STEEL, REUSABLE "SPIN-ON" OIL FILTER

- Made from laser-cut, medical-grade, 304 stainless steel micronic filter cloth, this filter provides 200% more filter area in many cases
- Stainless filter catches items down to 35 microns, which is about three times better than most good paper or brass filters
- Unlike glued paper filters, the FLO Oil Filter pleat seam is welded and able to withstand up to 600° F
- Filter maintains consistent flow under all conditions including extreme heat, the presence of water, and cold start-ups where paper filters can flow so poorly that they often cause the bypass valve to open and allow unfiltered oil to enter your engine
- Should be the last filter an owner ever needs; this high tech filter technology is widely used in all types of auto racing including NASCAR, Indy type cars, Formula 1 and in the aerospace industry where filtration is of the utmost importance
- FLO reference # PCS1
- See application chart above

TECHNORESEARCH

CENTURION SUPER PRO PLUS PROFESSIONAL DIAGNOSTIC TOOL SYSTEM

- The industry's only complete professional diagnostic tool system designed for independent professional repair facilities
- Communicates with all 08-17 Victory, 03-17 Indian, 97-15 Harley-Davidson® and Buell models using the proprietary VCM-TR3 Communication Module with included cables
- Re-flash blank ECU, program VIN and Key Fobs on Harley models
- Easily perform speedometer calibration on all Harley models through 2015
- ABS bleeding and ABS solenoid-pump testing on Harley models
- Read and clear Diagnostic Trouble Codes (DTC)
- Reset air/fuel values and adjust idle rpm on Harley models
- Perform active tests on tachometer, speedometer, fuel pump, idle rpm, system relays, cooling fans, IAC, ACR compression, injectors, indicator lights, coils, coolant pump, left or right turn signals and more on Harley models
- LED indicator tests for 6th gear, ABS service, battery, check engine, cruise control, high and low beam, neutral, oil, security and coolant temp on Harley models
- View real-time data in strip chart or digital dashboard formats
- Requires use of a Windows laptop, PC or tablet; connect using either included cable or Bluetooth® wireless connection
- Fast data acquisition and many hours of data storage provides accuracy and saves time
- Can easily update software online through Technoresearch to stay current on all features, years and model types
- Included VCM-TR3 Communication Module is fully compatible with Direct Link & Tune Builder keys (sold separately)
- Includes Mobile Dyno with Android app
- Durable metal housing and easy adapter system allowing for fast switches between motorcycles
- Made in the U.S.A.

SUG. RETAIL **\$2,126.95** **PART #** **3807-0314**

VICTORY/INDIAN CENTURION PRO UPGRADE KIT

- Kit includes all cables and hardware needed to upgrade a Centurion Pro kit (PART #3807-0313) to include Victory and Indian features
- Activation code included inside package to easily unlock features
- Made in the U.S.A.

SUG. RETAIL **\$428.95** **PART #** **3807-0344**

TUNE BUILDER

1020-2409

1020-2413

- Tune Builder is an easy-to-use, professional tuning aid that saves up to 50% of the time needed to create mapping
- Quickly combines current map information with using its powerful data collection and sophisticated algorithms to automatically create tables that allows users to copy/paste completed maps into flash tuning software
- After data is collected from a motorcycle ECU, Tune Builder's Auto Mapping feature automatically generates fuel tables to create the most efficient map possible
- Can be used with all flash tuning software regardless of brand, including OE and aftermarket products
- Effortlessly tune Volumetric Efficiency (VE) tables, detect and remove spark knock and evaluate engine usage areas
- Log up to 16 channels simultaneously and at high frequency
- Record and seamlessly integrate any O₂ sensor device into data collection
- Can utilize the motorcycle's stock narrow band O₂ sensors (if equipped)
- View 3D plots in a grid or in color and view statistics on collected data
- View and adjust tables simply
- Easy to apply manual corrections of VE and spark tables
- Can apply changes to front and rear tables simultaneously
- Keys are available with either 5 or 10 licenses; one license used per motorcycle
- Made in the U.S.A.

NOTE: PART #1020-2409 includes VCM-TR3 communication hardware and cables. License keys need to be purchased separately.
NOTE: If you have a Centurion Super Pro or Centurion Super Pro Plus, PART #1020-2409 is NOT needed.

TRO₂ WIDEBAND AIR/FUEL RATIO SYSTEM

- Essential tuning assistant designed to be used with data logging systems such as a dyno or the Mobile Dyno feature from TechnoResearch found in Centurion Pro, Centurion Pro Plus and Tune Builder
- Includes two Bosch LSU 4.2 O₂ sensors with 7 foot long cables for easy and versatile usage
- Interfaces directly with any TechnoResearch VCM-TR3 communication module found with products such as Tune Builder, Centurion Pro, Centurion Pro Plus
- No calibration required with digital precision
- 12 volt DC power input required
- Made in the U.S.A.

SUG. RETAIL \$569.95 PART # 3807-0343

Dynojet

POWER COMMANDER V

- Fuel control for each individual cylinder in a smaller enclosure
- "Warm-up" fuel adjustment (unit reads engine temp and allows fuel/timing adjustments based on the reading)
- Includes ignition adjustment feature; allows full ignition timing control of each cylinder
- Easy to install
- USB powered from computer; 9 volt adapter is no longer needed
- Two-position map-switching function built in
- Can add any Single Pole Single Throw (SPST) switch and toggle between two different fuel maps
- Gear/speed input allows for map adjustment based on gear
- Analog input allows user to install any 0-5 volt sensor
- Build an adjustment table based on analog input such as boost or temperature
- Power Commander V is capable of allowing each cylinder to be mapped individually and for each gear with the gear position input connected
- Enhanced "accel pump" utility
- Made in the U.S.A.

AIR CLEANER KITS AND COVERS

FOR INDIAN CHIEF CLASSIC, CHIEF VINTAGE, CHIEFTAIN AND ROADMASTER MODELS 14-16

- Engineered to boost performance
- High-flow air filter provides twice the surface area of the stock filter for up to 37% more airflow and a five horsepower gain
- Design maintains leg clearance
- Billet aluminum construction with a high-quality, washable and re-usable cotton gauze air filter element
- Covers not included, optional air cleaner covers sold separately; must order an air cleaner kit and cover for a complete assembly
- Covers are made from billet aluminum and show-chrome plated
- Optional S&S® Pre-filter available separately
- Made in the U.S.A.

NOTE: PART #1010-1612 CA Exempt per C.A.R.B. E.O. D-355-15 for 14-15 model years.
