### ANGLE OF ATTACK

The modern riding position - higher rear sets, lower clip-ons - has dramatically altered how a rider interacts with the modern hypersport motorcycle. Compressed into an ever more compact shape, the rider's head positioning requires increased angle to maintain visibility and stability. With this in mind, ICON® designed the AIRFRAME PRO™.

Concentrating on this singular design focus allowed us to realize opportunities to decrease drag and weight by sculpting the traditional neckline to avoid jacket or suit interference. Its aggressive geometry increases the line of sight while improving aerodynamic attitude in a fully-tucked riding posture.

The dramatically reduced shell profile, comprised of aerospace-grade carbon fiber or FRP, features a track-recognized ECE certification. Precision assembly techniques further this dedication to mass reduction, allowing ICON® to craft a helmet that is exceptionally light and peerlessly outfitted.

Internally, the traditional three-piece liner has been upgraded to a five-piece liner, providing a greater amount of fitment combinations for each unique head shape. Crown, lateral, fore and aft padding components allow for a possibility of 27 fitment combinations in a single shell, double that of the AIRFRAME PRO's competitors.

Both internally and externally, the ICON® AIRFRAME PRO is optimized for the Angle of Attack.

### AIRFRAME PRO™ FEATURES

\*World Standard, Meets DOT FMVSS 218 (US), ECE 22-05 (EUROPE), SAI AS1698:2006 (AUSTRALIA) & PSC (JAPAN) Helmet Safety Standards. Does Not Ship With SAI Or PSC Certification Stickers Unless Purchased From An Authorized Dealer In That Country.

SAFETY WARNING: Riding a motorcycle is a dangerous activity. No helmet can protect a wearer against all possible impacts. When riding, always wear a helmet, eye protection, protective clothing, gloves and boots. There is no assurance that serious injury or death can be avoided even if you wear a helmet. Take all precautions to avoid every risk when riding a motorcycle. This helmet is not meant for use as a fire retardant product and does not contain any fire retardant materials. Please ensure that your Icon® products fit properly. Improperly fitting products can impair your ability to control your motorcycle.

Detailed instructions for determining your correct helmet size are located on page 168 of the Spring 2015 Catalog.  
Replacement parts such as liners, cheekpads, and superevents are located on page 11.

ANGLE OF ATTACK

The Airframe Pro Ghost Carbon goes without graphics, logos, or gimmicks and lets its design speak for itself. The dramatically reduced shell profile, track-recognized ECE certification, and precision assembly techniques can all be seen in their purest form. The AFP is built using our unique "Angle of Attack" orientation - eyeport, vents, neckroll, and aerodynamics all optimized for an aggressive sportbike riding posture.

LET MY PEOPLE WHEELIE  
Opulent, egocentric, and just a little crazy, Amenhotep reigned over a forty-year Egyptian desert party. Penned by ICON Signature Artist Tanner Goldbeck, and flaked and foiled until the gods got jealous, it's a shout-out to the phattest pharaoh of his time. The AFP Pharaoh is a lid worthy of a trip from here to eternity.

## SHE'S SO HOT

Run for the hills, boys, this girl means business. The Overlord Sweet Dreams jacket is a trip to the mall on one wheel. The professional road racer in you says attack fit while the sweet 16 side says tie-die hotness over a hot pink sublimated textile chassis. Women riders are taking over the streets, and we say cheers to that.

TAKE LIFE BY THE REINS

A lady never gets her hands dirty; whether that's in the shop during a bottom-end rebuild or clasped around the mane of a majestic Alicorn. The Anthem Sweet Dreams gloves abide by these rules of engagement for the premier damsels of distress. Sublimated chassis, seamless Battlehide™ goatskin palm, and a D30® knuckle insert are the perfect combination for asphalt flight.

BLACKTOP FLASH

Hightop for top speed, the Accelerant boot is a technical sport boot that blurs the line between performance and casual. Leather chassis, D30® ankle impact protector, TPU™ heel and toe box, and axialmetric steel shank are all business. Athletic bottom unit, streamline upper, and ankle height say cool runnings. On lock and up on the rear, the Accelerant plays by its own rules.

CLASS DISMISSED

As flashy as a butterfly knife and as mean as a boy named Sue, the Stickup is the jacket your parents warned you about. Antiqued leather sleeves, varsity textile body, high-end zippers and a full D30® protector suite keep things fully motorcycle legit. Visually the chenille embroidery over suede appliques, with just the right amount of skullage, is the requisite ticket when the time comes to cut class.

GO FAST, TURN LEFT

The Elsinore's™ five-strap alloy-buckle chassis, stamped metal heel plate, and internal steel shank combine for a serious dose of moto-x homage. The traditional Goodyear™ welt construction mates the ICON street-specific sole to the magnificent leather upper. A medial-entry zipper, borrowed from paratrooper jump boots, is the only luxury the Elsinore will allow itself. A modern relic from an era when men were iron and tanks were steel, the Elsinore: old-school MX reinterpreted for the urban sprawl.

THE FOREST THROUGH THE TREES  
It's a hard knock life for a good ole boy. All this fast offroad equipment, and nothing to wear with it. Well, consider that problem solved. The DKR Splintered is the backwoods bomber you need for wherever you may roam. The HYCOR waterproof/breathable chassis is Dupont Teflon® coated with all seams sealed. The main zipper features a gusset and a magnetic storm flap, and the Hydrolock front zipper is a premium touch only found on RAIDEN Jackets. Thick Thermolite® liner for cold-weather situations, but with TechMesh® panels built in for more efficient core regulation and more athletic fit. Removal of excess snaps, zippers and pulls further decreases the weight of the garment and enables a much improved fit. Get out there and get on it. #BigTimeADV

BACKWOODS BACKHAND

The RAIDEN Deadfall glove was built for a split directive with one solution – offroad wearability with street toughness. Traditional MX gloves are built to prevent blisters and provide limited coverage against dirt, but their palm material is not suited for asphalt encounters. In contrast, the Deadfall glove features our patented one-piece leather Battlehide™ palm. No seams or stitching provides excellent coverage while minimizing vulnerability and blistering. The backhand is also more fit for dualsport use. An integrated D30® knuckle insert provides reinforcement while a sublimated mesh chassis delivers full breathability.
