

HOOK 25 alu motorbike

The HOOK 25 alu motorbike is the easy, magnetic alternative to a Double D Ring fastener.

- Can be opened while wearing gloves
- Snaps into place just by bringing the two parts close together thanks to the magnets
- Locks securely thanks to the mechanical undercut
- Static breaking load of 200kg so won't accidentally open
- Has all the safety features of a double d fastener with added convenience of being self closing and having easy one hand opening
- Fulfills the standards for ECE and DOT

FIDLOCK®

- (hand icon) easy one-hand opening
- (glove icon) even with gloves
- (plus icon) doesn't pinch your skin
